

## BOTH COAL AND PEAT

Are to be Found in Large Quantities Near Duluth.

## EXPERT EXPLORERS NOW ON SEARCH.

They Have Found Excellent Coal and Quantities of Peat Capable of Smelting Ores.

There is coal in paying quantities in northern Minnesota. Of this there is no question. This morning said a leading Duluth manufacturer who is expert in all things relating to mines and mining.

"I have known that there was coal in northern Minnesota for a long time. The very nature of the country makes this probable, and coal experts have always said that there were coal beds in this part of the country. Coal was discovered months ago near Duluth. Another line of the Duluth Rapidly, and I have seen specimens of bituminous coal that came from there that were as good as those from Pennsylvania. A number of experts are going up on the Duluth and Winnipeg, and within thirty days we shall know just what there is there."

There are also vast beds of peat along the coast as well, probably, as in other parts of the state near by Duluth. These peat beds, it will be news to Duluthians to know, have been extensively explored by experts in the employ of the Duluth & Winnipeg railway, at the head of whom is A. C. Barlow of this city. Mr. Barlow has spent the summer exploring these beds, he has dug pits in the old lake beds where the vegetable matter is accumulated, and has brought down to Duluth numerous samples which have been tested in furnaces and found excellent. He has satisfied the railway people and himself that the peat deposits are practically inexhaustible, and a lot of the stuff has been sent forward to Eastern buyers and other iron furnaces.

It is claimed that this peat is as valuable for reducing ores as most of the ordinary grades of coal, and that it will prove very valuable to Duluth for such smelting. Should this prove true it would be a fact of the utmost importance. These peat beds, so far examined, lie just north of the line of the Duluth & Winnipeg road between the Floodwood and Swan rivers.

## LOGGERS AND SETTLERS ARM.

Further Trouble to be Feared in the Upper Michigan Frontier.

ASHLAND, Wis., Sept. 30.—Special to The Herald:—Edward Pearce has reached here from the scene of the trouble between armed homesteaders and logging gangs on the Upper Michigan. Mr. Pearce confirms the report that the homesteaders shot down the teams of the loggers and says that the loggers themselves would probably have been included in the list of victims had they not retreated.

The settlers are generally believed to have first right to the land, which lies in several counties and is covered with valuable timber. Settlers with rifles and themselves with rifles, and the lumber company, which claims to have a right to the timber, is arranging to make several parties of armed loggers. Trouble, and possibly loss of life, will result from such a movement. The influence of local authorities will be invoked.

Logging on the Floodwood. Manager Gallup of J. C. Flynn & Co., Little Falls, is rushing the tie-making business on the Floodwood, making cedar tie only, and pushing them out 10,000 before it freezes up. J. C. Flynn & Co. will lumber this winter also on the St. Louis river above the Floodwood, intending to put in about 2,000,000 feet.

## Bought a Big Pine Tree.

A. P. Brower & Sons of Saginaw have purchased a tract of 40,000,000 feet of timber to the north of the city. This tract is near the line of the Iron Range road and was formerly owned by Fowler & Chapman. It will be manufactured at Duluth.

## Activity at Bay View Heights.

The manufacturing growth up the bay, and starting up again of the car works is making itself felt in some of the western suburbs. The Bay View Land company reports a strong demand for lots on the hill, and have sold some \$10,000 worth of acres and lots during the past six weeks. The public are evidently realizing the value of accessible suburban property adjacent to where the great manufacturing growth is taking place.

## Mr. Hibbard's Fight.

At the meeting of the Twin City Passenger association in St. Paul yesterday afternoon, G. P. A. Hibbard of the Soo and South Shore, asked for a revision of the tariff to Michigan and northern points, putting Duluth on the same footing as Minneapolis and St. Paul. The proposition was naturally not viewed with favor by the association.

## FROM THE WEST.

Starting up Our Works Departments: At the Iron Bay (Notes of West End News).

At the Car works things look like business. About thirty men are under the superintendence of George Warnock, are busy getting ready in the rolling mills. Fires will be started either tonight or tomorrow morning so that they can begin rolling iron next Monday. In the machine shop there are about twelve men at work under "Tim" Ryan cleaning up. They will begin work in the department tomorrow.

## At the Iron Bay.

At the Iron Bay works business is keeping everybody busy. Engine No. 4 of the Duluth & Winnipeg is being entirely refitted. This will make five engines in all which have been fitted since these works. The big Corlies engine for the electric light works will be completed by Saturday. Another great hoisting drum has just been completed for the Norrie mine.

## CHAMBER AND COUNCIL.

Doings at Regular Sessions of Both Bodies.

## DISCUSSES A SHIP CANAL TUNNEL.

Instead of a Bridge; Council Also Appoints Judges of Election; Other Matters.

The regular weekly business of the Chamber of Commerce was transacted, before President Baker, of the North Star Construction company, addressed the assembly, giving the status of the project of a ship canal tunnel. The project was discussed by the Chamber of Commerce, and it is planned to note that the project has at last assumed shape. The Motor Line company has graded Woodland and Motor Line avenues wide enough to admit of an excellent street besides the electric track. The Motor company is clearing land near Woodland that may be used as a track, and buildings and barns may be erected there. Manager Goggin of the Motor company states that the track may be completed this fall. It is about a mile and a half beyond Glen Avon farm and some 200 feet to the left of the Motor line. The situation is well chosen, and level, offering many natural advantages.

## Chicago's Great Meet.

Chicago, Sept. 30.—A grand athletic tournament will be held on the grounds at Parkside Saturday, Oct. 4, when the following events, all starting at 10 a. m., will take place, commencing at 3 o'clock: One hundred-yard run, 200-yard run, 400-yard run, 800-yard run, one-mile run, five-mile run, one-mile walk, two-mile steeplechase, pole vault, running long jump. Some of the greatest amateur athletes of the world are entered for the above events. The best amateurs of the West will also compete.

## New York.

Capt. Glascock is now second on the list of late lamented. The salary list of the New York National league club this season is \$37,033. McPhee says that he has not signed a contract with the Cincinnati club for 1897. Treasurer Harry Sterne says that his name has been to a next year's contract for over six weeks.

## The Chicago American horse show.

The Chicago American horse show managers have made provision for 100 private boxes in arranging the layout of the exposition building, and early as it is, over half of them have been applied for. The horse show promises to be even a greater success than it was last year.

## The Puritan Athletic club has made arrangements for a fight between George Godfrey of Boston, and Ed. Smith of Denver.

The fight will take place on Sept. 3, and he for a purse of \$2003. The men are good ones, and will make a great fight, that will probably terminate in Smith's favor.

## A CHURCH CONVENTION.

Annual Meeting of the Christian Church Society.

## SOME PROMINENT PASTORS PRESENT.

Address of Welcome by Dr. Maxwell and the Response by Rev. L. A. Pier; Routine Business.

The annual convention of the Minnesota Christian Missionary society was opened this morning at the Christian church with brief devotional exercises by A. E. Major.

The following delegates were present: Markato, Rev. W. W. Swift, Litchfield, Rev. L. A. Pier, Cleveland, Rev. J. G. Harrison, Maine Prairie, Rev. W. A. Pier, Duluth, O. L. Young and H. R. Fisher, Morris, Enoch Leavitt, Marston, J. W. Cooper and wife, Misses Kate and Lulu McCaleb; St. Paul, Rev. and Mrs. L. Lane, Mrs. Teepie and Mrs. Pierce; Minneapolis, Rev. and Mrs. W. J. L. Landon, Mrs. Peck and Miss Choate. Several more delegates are expected to arrive this evening.

The address of welcome was delivered by Dr. S. C. Maxwell, who assured the visitors that the people of Duluth were glad to see them here. Many members of the society in Duluth come from the East and as they are 150 miles from any other congregation of the same society they sometimes get a little homesick. He hoped that they would enjoy their visit to Duluth and be glad to come again.

Rev. L. A. Pier, in response, related a little experience. He said that when he arrived in the city last evening there were three different parties at the depot all of them being anxious to entertain him, and quite a party ensued. It is only a sample he thought the people of Duluth must be very hospitable people. The speaker referred to the wonderful growth of the city and the enterprise of its citizens and called attention to the necessity of greater work towards the Christian enterprise of the citizens into religious channels.

President L. Landon, in his annual address, reviewed the financial system adopted by the society, commending it as the best to be pursued and also referred to the necessity of co-operation with the weak and scattered churches. The various committees were appointed by the president. A resolution was passed inviting the members of the church and visiting preachers to take part in the exercises. The question of amending the articles of incorporation of the society was referred to a special committee consisting of Misses Moffett, Pier, Young, Holt and Miss Choate. The afternoon meeting was occupied in hearing the reports of the different officers of the society. This evening there was to have been an address by W. A. Foster, but owing to his inability to be present, an address will be delivered by Rev. R. Moffett, of Cleveland, secretary of the general society.

**CITY BRIEFS.**  
The South Shore bank has given no indication yet of its acceptance of the proposition made a few days ago by the Western Passenger association.  
Articles of incorporation of the Polish Investment company were filed yesterday afternoon. Capital stock is fixed at \$25,000. The incorporators are Andrew Marszal, T. H. Heinelt, Anton Grams, Charles Neumann and Anthony Grabachiewicz.

The following variations in temperature were recorded at Pioneer Fuel company's office, 1101 St. Louis, 23d Superior street: 12 m., 47°; 3 p.m., 61°; 6 p.m., 58°; 9 p.m., 50°; 7 a.m., 53°; 9 a.m., 38°; 12 m., 44°; 3 p.m., 57°; 6 p.m., 57°; 9 p.m., 37°; daily range, 23°.

George Williams, Pete Carlson, Pete McEne and James Kelly, plain drunks joined the street gang for seven days this morning. John Ryan drew an additional three days for being on the streets. John Fresser was given the usual dose for keeping his saloon open after business hours.

Seats are selling well for the Mendelsohn Quintet club's excellent concert at Temple Opera tomorrow evening. It will be well worth hearing.

The filing of articles of incorporation by the Duluth Milling company, mention of which was the "Benn mill" has been made frequently, is preliminary to active work at the site of the mill and the company will let contracts for foundation and building its 2000-barrel flour mill in a short time.

## THE BILL IS PASSED.

The Senate Agrees to the Conference Tariff

AND CONGRESS STANDS ADJOURNED.

Bids for the First Battle Ships; Other Live Washington Topics of the Day.

WASHINGTON, Oct. 1.—The reading of yesterday's senate Journal having been dispensed with, Mr. Sherman offered a resolution for the appointment of a committee of two senators to join a like committee on the part of the house to wait on the President and inform him unless he shall have any further communication to make, the two houses are now ready to adjourn.

Mr. Blair—I desire before adjournment to call up the labor bill and have action upon it. I would not like any resolution to be adopted that would interfere with the disposition of that bill.

Mr. Sherman—The resolution looks merely to asking the president whether he has any further communication to make. Mr. Blair later withdrew his objection on the intimation that the resolution will not interfere with the labor bill. The resolution was agreed to and Messrs. Sherman and Harris were appointed the committee on the part of the senate.

While waiting a quorum in the house on the question as to the reading of this Journal a message from the senate announced the agreement to the conference report on the tariff bill.

A HOLD UP.

An Old Time Stage Robbery Occurs in Eureka.

EUREKA, SPRING, Ark., Oct. 1.—Road agents held up the Harrison & Eureka Springs stage at midnight last night. The driver was commanded by one to halt, while his masked comrade, revolver in hand, stepped to the door of the stage and interviewed the two passengers.

Taking the mail pouches with them, the robbers disappeared in the woods, leaving the driver to make his way to the next stage house. This is the third time this stage has been robbed.

Rental Haggles.

PORT WATKINS, Ind., Oct. 1.—The residence of Mrs. Charlotte Hays, a widow, was entered yesterday morning by two men who attempted to break into the house and steal the furniture.

Handling Firewater.

WATERLOO, Iowa, Oct. 1.—The sale of liquor in original packages has been commenced here by the agent of the Peoria, Ill., firm, who says he desires to make a last case. The firm is recalled that the advice of a Cedar Rapids attorney, who holds that the present Iowa prohibitory law is invalid, and he is of effect will have to be re-enacted. The liquor was ordered seized at once by the county attorney.

The New Regime.

CHICAGO, Oct. 1.—The Milwaukee & northern road which was last week purchased by the Milwaukee & St. Paul, passed into the hands of the latter corporation today, and hereafter it will be known as the Milwaukee & Michigan division of the St. Paul system.

Two Unfortunate Employees.

LOS ANGELES, Cal., Oct. 1.—Geo. Martin, a bookkeeper and cashier, and James Dwyer, a collector of the Southern Pacific railroad company, have disappeared, and an investigation shows they have robbed the railroad of some \$5,000.

Canada No Refuge.

CALGARY, Alberta, Oct. 1.—Dr. Living, heart, alias Campbell, was arrested here yesterday charged with rape in Hamilton, Butler county, Ohio. The doctor, when under indictment, jumped on his horse and escaped to Canada. He was brought before Justice Robson and remanded till Monday next to old time extradition proceedings.

Settled by Arbitration.

SAN FRANCISCO, Oct. 1.—Chief Arthur of the Brotherhood of Locomotive Engineers has met the officials of the Southern Pacific railroad to settle the grievance of engineers on the Atlantic system regarding promotion. It was decided to settle the matter by arbitration and a committee will meet at Houston, Texas, some time during this month.

The Pan-American Railway.

WASHINGTON, Oct. 1.—The department of state has received a telegram from our minister at Bogota relating to the Columbia congress has approved the international railway conference without opposition and that three commissioners have been appointed by the president.

TELEGRAPHIC BRIEFS.

Yesterday, at Ashland, Wis., John Smith, a seaman on the steamer St. Paul, loading her with ore, fell through the hatchway of the vessel and was instantly killed.

In the Ashland courts yesterday Wm. Gray was found guilty of robbing the United States Express company of a \$2,000 money package on the Ashland express about three months ago. Sentence was deferred.

George B. Chelver, D. D. L. D., well known as both clergyman and author, died at his home at Englewood, N. J., this morning.

Charles A. Benson who is wanted for complicity in the murder of Mrs. Mottman in Leavenworth, Kan., last March, was arrested last night at Camden, N. J.

## RUSSIAN JUSTICE.

This Time the Penalty is Probably Not Mitigated.

St. Petersburg, Oct. 1.—A major-general and six other officers have been banished for life to Siberia for gigantic embezzlements of government property. The corruption covered half a dozen of the leading military stations, and was deeply rooted and extensive.

The major-general, who was staying at the hotel at Helsinki during the court martial, with his wife and family, went back as usual after the sentence had been pronounced. He was a pale, thin man, but calmly paid his bill, bid his wife and family an eternal farewell and went of his own free will to prison.

The convicted men will start on their long march to Siberian mines in a few days.

COPMAN'S CASE.

The Injured Man Grows Steadily Weaker; To Take His Last Deposition at Once.

Charles Copman who was injured by a blow with a club in the hands of Wesley Gault, passed a very restless night last night and is considerably weaker today.

It is not expected that he can live long. His condition is such that he is being made to take his deposition either today or tomorrow, as it will be necessary in the preliminary examination.

None but members of the family have been allowed to see the patient for several days past.

FROM BERLIN.

German Socialists Celebrate; Large Increase of Vote Arrayed.

BERLIN, Oct. 1.—Socialists are today celebrating the expiration of the anti-socialist law. In this city, as well as in Hamburg, Leipzig and Frankfurt, the socialists are taking a holiday and holding big demonstrations. Two hundred thousand bronze medals commemorating the expiration of the law have been struck off for distribution today.

Pamphlet addresses to the workingmen of Germany were distributed in all the industrial centers. They are issued by the government, having been supervised by the censor, and contain a resume of what he has done and intend to do for the working classes.

Will resist the law with all their might. They are taking a holiday and holding big demonstrations. Two hundred thousand bronze medals commemorating the expiration of the law have been struck off for distribution today.

## STOLE HIS LAST RIDE.

An Iowa Boy has a Terrible Experience on a Car.

SHOULDN'T KILL HORSE THIEVES.

And Even the Murder of Them is a Crime; Notes of the Day's Casualties.

CRESTON, Iowa, Oct. 1.—A boy named Brown, in company with George Mulligan, aged about 15 years, climbed on to a passenger train at Creston to steal a ride west beyond Rock Oak.

While going under a covered bridge young Mulligan's head struck a rafter and he was instantly killed. His comrade held on to the dead body for many miles before the train was stopped, and was in a pitiable condition when it was thrown off the tracks.

And Killing Horse Thieves is a Crime.

DENVER, Col., Oct. 1.—Three residents of Mendon, Utah, have been arrested charged with murder committed twenty-four years ago, the victim being a horse thief from Ogden. The sheriff of Weber county pursued his man to Mendon where he delegated the accused to conduct the trial.

The case was taken to the court house where the accused were held in custody. The case was taken to the court house where the accused were held in custody.

## ONE OF THE RESULTS?

CAPT VINCENT, N. Y., Oct. 1.—On account of the McKinley bill, the Cape Vincent Seed company and the Cleveland Seed company are busy engaged in freight from Canada all the time.

NO COMMENT NECESSARY.

CARHART, Ill., Oct. 1.—The grip has made its reappearance in this county. The first fatality was at Hamilton. Mrs. Arnold, wife of City Marshal Arnold, died of the disease last winter. One woman was sent to the insane asylum who had suffered from the disease ten times.

## THE CANAL.

The Idea of Tunneling Received With Great Favor by Most Mayor Davis.

Idea on the Matter.

The project of constructing a tunnel under the canal is one of the main topics of conversation about the city hall nowadays, and the scheme is gaining many converts.

President Bannell of the board of public works maintains that such a piece of engineering would cost at least three million dollars and therefore will not be undertaken.

On account of the expense involved, he is therefore in favor of a bridge. Mayor Davis, however, holds a different opinion and he believes that the tunnel scheme is more feasible.

At the opening of the session this morning the presidential address was delivered by Hon. Abram S. Hewitt. Interesting technical papers were presented. This afternoon there was an excursion on the Hudson of both the American and International institutes, and the papers of the day were distributed in pamphlet form.

Saturday morning the visitors will start by special train for Philadelphia, Lebanon, Harrisburg, Pittsburgh and Chicago, where the party will be divided into two excursions, one going South as far as Birmingham, Ala., returning by the Gulf coast, and the other going North into the Lake Superior iron and copper regions.

The northern party will reach the Marquette range on the 15th, and inspect the plant of the Chapin mine, which expects to mine this year \$800,000 tons of iron ore.

Thence the party will visit the Gogebic range, spending the 10th there, and will reach Sault Ste. Marie on the 17th. The copper mines of Lake Superior will be visited, including the Calumet.

That St. Clair tunnel at Port Huron has worked a revolution in tunnel building and has solved a great many heretofore difficult questions. It would not be a bad idea for Duluth to investigate it.

## A CHANGE IN SENTIMENT.

England's Coercion Policy is Hearing Its Last Days.

London, Oct. 1.—The Irish arrests and trials continue to attract a large share of public interest. John Morley and Commander Hingworth, who were in the crowd at Tipperary last Thursday when the clubbing by the police occurred, have expressed their willingness to appear as witnesses in the police court in case the matter is brought before court.

As an indication of the weakening of English opinion regarding Ireland, the action of the annual assembly of the Haptist community, now in session, is significant. The assembly adopted a series of resolutions touching public matters, among which was one severely condemning the government's Irish policy. The resolutions were in favor of a system of free education and extensive of sympathy with the movement for improving the condition of the laboring classes.

## PRISON CONGRESS CLOSES.

CINCINNATI, O., Oct. 1.—The national prison congress has finished its business and adjourned to meet in Pittsburgh in October, 1891. Rev. Dr. Winsor, its secretary, was re-elected, but owing to the pressure of other duties he resigned. Rev. Mr. Milligan, its secretary, was chosen.

The meeting has been of more than ordinary interest. The addresses, papers and discussions have all been interesting and valuable. The President, Peabody, of the Baltimore & Ohio Southwestern, has tendered a special train to take the members to visit the Ohio penitentiary.

## FOR THE THREE BATTLE SHIPS.

WASHINGTON, Oct. 1.—Considerable interest is manifested in naval circles in the result of the bids that are to be opened at the navy department this afternoon for the construction of three great battle ships and a swift triple screw steamer for the navy. About \$15,000,000 has been appropriated for these vessels, and the conditions of their construction are sufficiently favorable to induce bidders to enter the competition.

It is not unlikely that the vessels will be divided among the bidders, as the secretary is anxious to have them completed as soon as possible.

## THE CASE CONTINUED.

DUBLIN, Oct. 1.—The appeal of Messrs. Dillon, O'Brien and their fellow prisoners, to the high court of justice, for a writ to prohibit the magistrate at Tipperary from proceeding with the conspiracy case on the ground of bias has failed. Judge Holmes decided this morning. The case for the prosecution was continued at Tipperary today without striking episodes.

## CRANKY DENTAL.

CINCINNATI, Oct. 1.—Mr. L. C. Weir of the Adams Express company says in reference to a dispatch from Pittsburgh, which told of a wholesale discharge of employees, that there has been no wholesale removal and that he is not vice president and is not responsible for what action had been taken. He says the executive officers act in such matters as removals of subordinates and that when it appears that more men are employed than necessary, a proper number of discharges are ordered.

## BIG FREIGHT WRECK.

BOSTON, Oct. 1.—An extra freight train of loaded cars smashed into another freight train which was at a standstill, between Belmont and North Cambridge, on the Central Massachusetts division of the Boston & Maine railroad last night. Some Boston cars were wrecked. The trainmen jumped and escaped uninjured. The track will be closed today.

## WAS AN IMMORTAL.

### IN THE GOOD OLD MISSOURI STYLE.

Several Times the Bold Robbers Besiege the Train; Some of the Particulars.

CANTON, O., Oct. 2.—A bold train robbery occurred this morning on the Cincinnati, Sandusky & Cleveland railroad between that place and Urbana. After the train left Urbana two masked men entered the express car and compelled the Adams express messenger, L. Scudder, to throw up his hands. They then tied him securely, robbed the safe of packages containing several thousand dollars and other valuables. While they were at work a brakeman attempted to enter the car and was shot at. He gave the alarm and the train was slowed up to give an opportunity to capture them, but they jumped just as it was entering West Liberty and disappeared.

Messenger Scudder was bound in his chair with a wash line the robbers brought with them. One of them whom the others called "Jack" tried to kill Scudder before he could leave the train. He gave the alarm and the train was slowed up to give an opportunity to capture them, but they jumped just as it was entering West Liberty and disappeared.

Scudder is about 50 years old, lives in Cincinnati and has been on the run since the Adams express messenger was captured by the robbers. He has been in the express business on it about three years ago. He was previously in the same company's employ on the Ohio river lines. He had just received his month's salary and it was among the booty.

A special from Bellefontaine says the men jumped out at a crossing near that place and two suspects have been arrested by the authorities there. Superintendent Bimble of the Adams Express company, in a circular which will issue this afternoon, describes the men as follows: "Five feet eleven inches in height, weighing in the neighborhood of 150 pounds each; wearing plain black overcoats, one with a cap, the other with a hat."

Those who know Langston and Mahone, are of the opinion that there were some interesting developments before they are through with each other.

### SYDNEY'S FEARFUL FIRE.

A Loss in That City of Over Seven Million Dollars.

SYDNEY, N. S. W., Oct. 2.—A fire broke out in this city last night and despite the efforts of the firemen and the assistance rendered them by citizens, the flames spread rapidly and extended over a large area on Pitt, Castlereagh, Moore and Hunter streets. The loss is estimated at \$1,500,000.

### Determined to Die.

CHICAGO, Oct. 2.—Last night Theodore Forstner jumped from the bridge over the street bridge into the river. Bridge tender McGraw jumped in after him and a fierce struggle ensued, McGraw trying to rescue the would-be suicide. Finally Forstner broke away and sank. His body was recovered an hour later. Forstner belonged to a prominent family in Germany and five years ago was a colonel in the German army. He came to this country but met financial reverses which discouraged him.

### She's a Professional.

NEW YORK, Oct. 2.—Search is being made in this city for a woman, an old retired merchant named Schulze, who has a magnificent mansion in the Hotel Marlborough in Charleston, S. C., and who eloped to America with a waiter named Fritz Leoz. Mrs. Schulze, before her departure, secured over 30,000 marks and a quantity of diamonds and other valuables. Her paramour left a wife and four small children in abject poverty. This is the second time that the woman has eloped in three months.

### No Noble Theft.

NEW YORK, Oct. 2.—The first payments on the stock of the New American Gas Investment company are being made today. Among those who have subscribed for stock are Postmaster General Wamaker for one million, Senator Quay for half a million, W. W. Gibbs for six millions, W. H. Kemble, F. A. B. Wagner, Wm. B. Ekins for twenty-five hundred thousand each, and a number of New York and Philadelphia manufacturers for lesser amounts. The Rothschilds are the London agents of the concern.

### Farmer Politicians.

CANTON, Ohio, Oct. 2.—The congressional convention of the independent voters of the Eighth or Charlie Posters district, opened here today. The movement is favored by the Farmers alliance and includes the Grange Farmers, the Knights of Labor and other labor organizations. Should a candidate be nominated it would result in a complete situation as the farmers' organizations are very strong in the district.

### This Includes Fair.

BOSTON, Mass., Oct. 2.—The local United States authorities, have begun a stringent enforcement of the new law relating to lotteries and gambling. The party comprises all lotteries and gambling houses in England to take up the Mormon faith. She said she was called and compelled to go.

### PEARSON BROS.

## THE ENGLISHMEN ENTERTAIN.

New York, Oct. 2.—The first of the round of grand banquets, which is a part of the program of the visit of the English and German iron and steel manufacturers to this country, will take place at Delmonico's tonight. The British Iron & Steel association will be the hosts of the evening, and the Americans the guests.

The invitations were engraved in England and are very English. They are printed on large cards in seven different colors and look like American chronicles. The portrait of George Stephenson occupies the center, and in the four corners are cuts of a locomotive and other products of the iron and steel makers' art.

### SOME REPORTS.

The Month's Business in the Most Important City and State Government.

The report of the postoffice for the month of September, for the carrier service is as follows: Registered letters delivered, 227,754; letters delivered, 22,800; other delivered, 1,021,216; local letters collected, 38,243; mail letters collected, 117,220; local newspapers collected, 13,764; mail postal cards collected, 16,913; other matter, 1,143; total number of pieces handled, 2,282,715. Total postage on all local matter, \$108,94.

The sale of stamps and stamped envelopes for the quarter just ended amounted to \$15,454.12, an increase of \$330.56 over the corresponding quarter in 1889.

During September the police made 199 arrests, an increase of 31 over the same month last year. The fines collected amounted to \$142,767 and 217 days work were obtained from prisoners. There were 107 arrests for drunkenness, 2 for assault in the second degree, 3 usual in the third degree, 4 petty larceny, 30 gambling, 1 selling liquor without a license, 5 for disorderly conduct, and 23 for miscellaneous misdemeanors.

The records of the health department show that during the month of September, attributed to the following causes: Erysipelas 6, scarlet fever 3, measles 1, diphtheria 1, pneumonia, phthisis and typhoid fever, 2 each, and 1 each from other causes.

Twenty-six were under one year of age, showing that the greater mortality was among infants. Twelve were over 40 years and 1 was over 60 years. Four were stillborn. Thirty were born in Duluth, 14 in other states and 9 were foreign. Twenty-nine were males and 14 females and 36 were single, 5 were married.

The annual death rate per thousand for the corresponding month was 11.7. For the corresponding month in 1889 there were 31 deaths and 20 births. During the month four cases of scarlet fever were reported and one resulted fatally. There were 32 cases of typhoid fever and 2 deaths. There were 50 births during the month 27 males and 23 females.

The report of the land office for the month of September shows the following: Cash entries are thirty-one, including 32 cases of timber land, 2 for same in \$430,331. There were thirty-eight homestead entries for which \$40,700 were paid. Fourteen pre-emption entries were made on 3889 acres, for which \$14 were paid to the land office. There were thirty-five declaratory statements for which \$14 were paid. Total amount of fees and commissions during the month was \$627.70.

### HE HAD A BOARDER.

Lived Years in a House Unknown to the Neighbors.

BALTIMORE, Oct. 2.—The arrest of George E. Wolfe on the charge of registering illegally has brought to light a very singular case of affairs in the house of Wm. L. Roskamp. Wolfe had registered for 12 years in the house, and soon after his name had been inscribed Wm. L. Roskamp presented himself, being the first European since Wolfe's journey who has advanced so far south without exciting hostile demonstrations.

Several hours later the sheriff found his clothing. There was a bullet hole in the wall near the head of the bed. Wolfe had been known in this neighborhood nearly three years, as a confidential man, and his principal business was the promotion of land contracts and thereby obtaining money from the people. He was a Frenchman, and his trouble he caused among the settlers.

### EXPLORED THE SAHARA.

An Expedition That Will Lead to Fresh Enterprises by the French.

PARIS, Oct. 2.—Mr. F. Foran, who has won both reputation and a competency through his system of artesian wells by which he has made some cases along the Wady Rih in the southern part of Algeria, has been absent for several months on a tour of exploration in the interior of the Sahara. He crossed the Algerian part of the desert and advanced as far as the oasis of Tidikelt, being the first European since Solle's journey who has advanced so far south without exciting hostile demonstrations.

He has returned to the French intend to build across the desert. He has estimated the cost of the expedition at 100,000 francs. He has no important sand dunes nor any serious obstacles in the way of travel, but in fact he made a sort of survey for a railroad route in this region. He was able to make thirty-five observations for longitude and latitude, and his expedition will make a great improvement in the maps of this region. On his return north he will be the first European to have been visited by a European.

It is expected that the fortunate return of the expedition will lead at once to further surveys by the French government in the Sahara, and that the first step toward this enterprise will be an expedition to bring the hostile and feudal Touaregs, who have so long been the terror of the country, into subjection. When they are taught that they will suffer severely for every murder they commit, and know that they cannot safely make forays over the country, there will be no obstacle in the way of pushing the railroad clear across the desert of the Soudan and a new era of French enterprise in North Africa will begin.

### Poor North Dakota.

DICKINSON, N. D., Oct. 2.—Today tariff prairie fires are raging east and south of here. Near Gladstone, several farmers have lost all their wheat, oats and hay. Reports today indicate there was a great loss north of Richardson. A party has been formed to guard the town. Several farms west of here have lost all their crops.

### A Cheap Spy.

PARIS, Oct. 2.—Madame Bennett, the woman who was arrested at Cannes on suspicion of being a German spy, and in whose possession were found plans of the defense of that place, has confessed that she was a spy, at a monthly salary of 300 francs. She was fifteen francs daily for traveling.

### We Can Make a Fair Alone.

BRUSSELS, Oct. 2.—The Independence Belge says that the adoption of the McKinley tariff will ensure the failure of the World's fair at Chicago, as it will be a needless and hopeless expense for Europeans to send exhibits there.

Prices on all leather goods have advanced in the East, but Wm. 293 West Superior street, is still offering bargains in boots and shoes, as well as shortly remove to his new store.

## PUBLISHERS IN TROUBLE.

Arrested For Violating the Anti-Lottery Law.

### ALABAMA A RICH STATE FOR ARRESTS.

More Than in All the Rest of the Union; Rules Out All Gift Enterprises.

BIRMINGHAM, Ala., Oct. 2.—The publishers of nearly all the country weekly newspapers in this section were arrested yesterday for violating the new anti-lottery law. Last week's issue of the newspapers contained lottery advertisements. The newspapers had gone to press before the publishers learned through the daily newspapers that the law was in effect from the day the president signed the bill.

The postoffice inspectors have been in the postoffice since several days seizing all the advertisements until the statement of United States Commissioner Hunter of this city that each and every copy of a newspaper mailed would constitute an offense.

When the publishers of the daily papers in this city were arrested, warrants were issued for each edition of their paper from the date the bill was passed until the advertisements were left out—five days in all. As the violations of the law were due to ignorance of the law as well as to the effect, the editors are naturally indignant. So far newspapers have been seized and sent to the postoffice in Alabama than in all other states in the Union.

### Good Enough.

WASHINGTON, Oct. 2.—Judge Tyler, the assistant attorney general for the postoffice department, decides that the law as well as to the Louisiana Lottery company. An advertisement for a church fair which speaks of a raffle or anything of the kind would be excluded from the mails.

### A LESSON FOR CONTESTORS.

A Pottinger Western Lawyer Deal With a More Shrewd He. BAKERSFIELD, Cal., Oct. 2.—Early this morning seventy masked and armed men appeared at the door of the court house and demanded the keys. They seized the judge and the clerk and said they wanted James Herrington, to whom they proposed to give a lesson. They put jailer and sheriff under guard. They opened the jail and took Herrington from his cell, gagged him and conveyed him to a lonely place four or five miles from the city. They cut his coat of tar and feathers. Herrington was then set at liberty and he disappeared.

Several hours later the sheriff found his clothing. There was a bullet hole in the wall near the head of the bed. Wolfe had been known in this neighborhood nearly three years, as a confidential man, and his principal business was the promotion of land contracts and thereby obtaining money from the people. He was a Frenchman, and his trouble he caused among the settlers.

### GOOD REASONS FOR IT.

The New York Central Officially Bars Out All Knights of Labor.

NEW YORK, Oct. 2.—The following circular has been issued from the office of the New York Central: The recent strike, the case of lawlessness committed in connection therewith, the published correspondence between the leaders of the organization that ordered it, and the fact that many men now seeking employment state that they quit work from fear of personal violence, and did not dare to resume work for the same reason, compel the management of this company to announce that it objects to its employees being members of the organization known as the "Knights of Labor." The management is satisfied that membership in this particular organization is inconsistent with faithful and efficient service to the company, and is likely at any time to prevent it from properly discharging its duties to the public.

### CAUGHT COUNTERFEITERS.

A Gang of Bogus Silver Men is Found at Lansing.

LANSING, Mich., Oct. 2.—A trio of counterfeiters, who have been flooding this vicinity with bogus silver dollars, were captured at North Lansing last night. Charles Wesley Hastings, the leader of the gang, is a veteran of Company G, Seventy-second Ohio infantry. His accomplices are Silas and Ben Hullitt.

The gang were surprised in their room in the very act of running the bogus coin, with all their dies, plates and metal. The dies were still hot from the molten metal when caught. All are desperate characters and attempted resistance.

### WITH THE G. O. P.

Idaho is All Right is Conceded by the Democrats.

BOISE CITY, Idaho, Oct. 2.—The estimate of the vote of Boise City and Idaho county gave a republican majority of 175 of the entire state ticket. Bingham returns show republican ticket a majority of 300. In Boise county, returns from four precincts give Wilson (dem.) for congress, 12 majority, same precinct gave Hawley (dem.) delegate vote of 1888 20 majority.

In the returns from five counties give Sweet (rep.) for congress, 900 majority. Measure returns indicate legislature will stand thirty republicans and twenty-two democrats. Republicans claim the state by 2500 majority.

The democrats concede the state to the republicans by 800. The returns show large gains for the republicans over the vote of 1888.

### SUASION DON'T GO.

The Mormon Franchisees are Bound to Accept the Faith.

NEW YORK, Oct. 2.—The authorities at the large office this morning issued an immense amount of moral suasion on the thirty-two young Mormon girls who arrived yesterday on the steamer Wyoming to induce them to forego their intention of becoming proselytes to the Mormon faith. The girls were reported from the other passengers as they landed and placed in a room by themselves. Three female missionaries from the emigrant girls home went among them and tried to convince them of the folly of the course they proposed to follow.

It was a very hard task. One of the girls, Karen Sylvesterson by name, who acted as spokeswoman for the party, frankly acknowledged that they were all willing to be of seven or eight wives, and were ready to accept the principles of Mormonism. The girls are all young and some of them remarkably pretty.

The attempt of the missionaries to influence them proved an utter failure, and as all that the large office authorities could do to use persuasion, the entire party will proceed on their journey tomorrow by the steamer Wyoming. The party comprises all told 202 souls, of whom 32 are children. Among the lot is a married English woman who left her husband in England to take up the Mormon faith. She said she was called and compelled to go.

## A 400 Wedding.

CHICAGO, Oct. 2.—The wealth and fashion of Chicago crowded into the Grace Episcopal church last night to witness the wedding of Miss Fanny Locke, daughter of the Rev. Dr. Clinton Locke, the eminent Protestant Episcopal divine, and John Kenneth MacKenzies of London, and the son of the late Col. John MacKenzie, a British officer. Among the bridesmaids were Miss Maud Hopkins of California and Miss Theresa Grant of Washington, D. C.

### Another Financial Agency.

Luther E. Newport, of the loan firm of Newport & Son, St. Paul, is in town. The firm is a very extensive one. R. M. Newport being one of the best loan and financial agents of the West. A Duluth office will probably be opened early in the coming year.

### THE OTHER SIDE.

Mr. Gould Tells The Herald His Side of the Late Unfortunate Affair at London.

Wesley Gould, the man who is under arrest for assaulting Charles Copman, today gave his version of the unfortunate affair.

He said that he and his brother had been anxious all of the time to preserve peace and had stated the same to Mr. Copman's attorneys. They refused to take a new lease and had expressed a willingness to vacate the premises on any date that Mr. Copman might name. On the same day the trouble occurred he had paid Mr. Copman for three days rent. They had a patch of potatoes on an avenue which has never been used by the city and this patch was the cause of the trouble. Mr. Copman driving about on the potatoes and when he sent his man to warn him of Mr. Copman refused to go. He then went himself to order Mr. Copman off of the potatoes.

He acknowledges that he had a club but that he only intended to use it to scare Mr. Copman. The latter instead of going away, told Mr. Gould to "strike away." Mr. Gould says that Mr. Copman then kicked him in the face and a moderate blow with the club, and a lot of witnesses said the same thing. Mr. Copman then drove away in the direction of the city.

There are facts in the case as related by Mr. Gould and as will be introduced at the examination to be held Oct. 3.

Mr. Copman is in a slightly improved condition today. His pulse is in a more healthy condition and his temperature has been slightly reduced. The attending physician is considerably encouraged.

Improved Property. I want to list desirable improved property paying good rents, have customers for it. D. W. SCORR, 401 Duluth Nat. Bank bldg.

## SOONER THAN EXPECTED

The Electric Car Lines Will be in Operation

### IN A FEW DAYS ON BENCH STREET.

And in Five Weeks Over the Entire City; A Pleasing Promise For Duluthians.

Two more of the new electric cars arrived in the city this morning, and the gauge is changed as far as Second avenue east, which will probably be by tomorrow night. Manager Chase has received telegrams galore to the effect that the poles have been shipped, and it is expected that they will arrive in the city in a few days, and the work of setting them will be commenced at once.

The work on the power house is being pushed as rapidly as possible, and will be well along by the time the engines arrive. The latter are expected by Saturday, Oct. 11. The remainder of the cars will be shipped with the motor attachment, and Manager Chase expects to have electric cars running on Bench street from the East End within ten days. The company already has three blocks ready for the pavers and paving will be commenced next week.

Cars will be run west as fast as the paving is completed. Until the entire job is completed on Bench street cars will be run by horse power west from Eighth avenue east. Everything looks so encouraging now that Manager Chase feels confident that electric cars will be running on all the lines, including the Woodland extension, within the next five weeks.

A lot of the posts for the electric railway arrived this afternoon from Chicago over the Wisconsin Central. They will be used on East Bench street.

## PRICE THREE CENTS.

### A Solemn Affair.

OMAHA, Neb., Oct. 2.—The national convention of the International Funeral Directors' association, which opened here yesterday afternoon, was resumed this morning. The principal delegates are from New York, New Jersey, Florida, Kentucky and Canada. The question of prices and the different goods entering into the business will be considered today.

### A Welcome Waiting.

GALESBURG, Ill., Oct. 2.—Arrangements are being made for a hearty welcome to President Harrison and his party on their arrival here next Wednesday. The reception committee will accompany the party on Thursday to the Otisway Coal Palace, from thence the President goes to Topeka, and then returns to Washington.

### TWO MILLS.

Excellent Sites Selected For Two Very Large Sawmills on the St. Louis Bay.

Two more mills will, in all probability, be located here this fall. These are the mills of E. H. Pearson & Sons and Arthur Hill, both Saginaw lumbermen. Some time ago Pearson & Sons had a litigation with the Ashland Loom company over charges, he claiming they were exorbitant. The action was decided against them, and since then they have been looking for a Duluth location. They were made several offers by land companies up the river, but did not desire to build so far out. Recently negotiations were entered into between Mr. Pearson and owners of the Sulphur tract this side of Onondaga for a piece of land on the bay front, upon which to erect a mill. It is stated that the deal is practically settled.

Arthur Hill is now being negotiated with by the new Duluth Land company for the building of a mill. The Land company had a meeting last week, and it is said that the result of the conference was that Mr. Hill was made a proposition in line with his wishes, and one which he will probably accept.

## DO TO THE PRIMARIES.

At the primaries tomorrow every republican will have an open opportunity to mark his preference for delegates to the county convention and can satisfy himself for whom the delegates will stand. Every republican is entitled to his preference and warranted in working for it if he chooses to the top of his ability in any fair way. We believe that straightforward hustling at the primaries and before a good vote is secured is the best way to get the party to do their duty, and they owe a duty to their party and the cause of good government at the primaries no less than at the polls on election day.

At the primaries the choice of the party is shaped and let no republican who neglects to take this choice by the vote weakly grumble his dissatisfaction afterwards. Do your duty! Go to the primaries if you possibly can, and to how few will it be really impossible. Vote and work in behalf of the man whom you honestly think to be the best and strongest running candidates whom the party can put up! Pull for your friends, if your friends are such men, and remember that other men's friends have an equal right to pull for them! Don't lose your temper or your head, and take defeat of your hopes, if it comes, with common sense and acquiescence in the choice of the majority fairly expressed.

## AN APOSTLE'S CREED.

Edward Bellamy announces in a readable article in The Forum for October the national plan of "First Steps." He advocates government control of the telegraph and the telephone as adjuncts and assistants to the postal service, of the parcel express business, of the railways and of the coal mines; he also advocates municipal control of public services as city transit, light, water and heat. All these, he estimates, would bring into the public service over 2,000,000 workers, and the total would be further increased by the addition of state stores that should supply at cost to the public workers, and in order to avoid injustice to private individuals in business for profit, handicapped competitors of the government, if you please—should supply no one else, all the goods of any nature needed by him. This provision would be expected to increase the sum of public workers most effectively.

Mr. Bellamy draws a more fascinating picture in the present article than was presented in his now famous book. He argues that the telegraph and telephone are but an extension of the postal service adapted to later needs and later growth; he uses the same argument in regard to the extension of parcel post service of the government. If the people freed the old toll roads, which were the only means of transport, why should they not now free the railways, which are the roads of the present day? asks he. As coal is a main factor in the cost of manufactures, as the coal miners are inhumanly treated, the coal production should be nationalized. These are his arguments. As to municipal works there is little to be said against public control, that is admitted.

He has a big and humanely-intended design in his eye, no doubt, but its practical working is, unfortunately for it, outside of his eye. His unruly army of workers would certainly work in a way to surprise and disgust him. And it will be some time before a people which respects private rights as well as public and understands common human nature will muster his army for him.

Van, the correspondent of The Minneapolis Journal, reviews the political situation in a way that is certainly not rose-colored for the republican campaign chances. It is not measuring but if it is true, it is far better to have the truth plainly given than taffy. In The Herald's judgment only ignorance or dissimulation will profess that the campaign anywhere in this state will be a walk-over for the republican party. If republicans are led to hug the delusion that an opposing candidate is going to be moved under, many are likely to sit back at their ease and neglect to vote where every vote may be wanted. Puffed up with complacency is sheer folly in such a campaign as this will be. If republicans go to sleep over it, for lack of having the truth drummed into them, it shall not be said that The Herald for one had any hand in rocking the cradle. There is no going to be the shrewdest kind of a fight in this district and state to elect our party opponents, and the quicker the party realizes this, the better for it. Over-confidence and laziness have caused the downfall of a new man, a gilded political pig. The election in Maine was not carried by muffling the alarm bells and victory here will not be won by any such folly.

The tariff bill as finally agreed upon has passed both houses, and was signed by the President yesterday. Now that its form and fate are finally determined, it can be fully and fairly submitted to the judgment of the country. Loads of misrepresentation have been dumped upon it. The reductions and removals of duties which it effects have been studiously ignored. Its equalization of class duties has been perverted by the

ory of new pampering legislation. All that can be done to picture it as another load of bricks dumped by selfish monopolists on the wall around their private preserves has been done. The Herald proposes to take the pains to show by exact comparison the principal changes made in the existing tariff, and to note why they were made. Then readers can judge for themselves, to whom now the McKinley bill is known chiefly as a democratic football.

The reasons for the relative immunity from pulmonary consumption in Colorado are discussed in a late medical journal. The prevalent sunshine, the dry air, and the rarefied condition of the atmosphere, are the prime influences which stimulate the consumptive and re-establish his health. All these conditions are much the same in Minnesota, and especially in this, its northern section, and consumption is an unknown disease here—except in cases where previous conditions and health so far pointed toward it that recovery after arrival here could not be looked for.

It is probable that within two, or at the utmost three weeks the welcome announcement can be made of the organization of still another company with large capital for the establishment of a flouring mill at Duluth. If the negotiations are successfully closed, as there is now every reason to believe they may be, this mill will be built at once, adding 2,500 barrels to the capacity of city mills. Another big mill should be welcomed even more heartily by present Duluth flour millers than by the city in general, for nothing will or can do more to strengthen the position of the Imperial and Duluth Roller mills than an increase of local capacity. He is indeed a narrow and shallow man who cannot see the truth of this statement.

## SEEN AND HEARD.

Some of the pathetic stories that come to light constantly in the business world show how much might be accomplished by a little well-directed charity. An instance fell under my notice yesterday of a girl type-writer whose physician told her about two months ago that she would have to go South this winter if she hoped to get rid of a cough which would inevitably result fatally. The girl had no money and she was obliged to support an aged mother. For two months she has been trying to save up money to go South with, and in detailing the facts yesterday she announced that she had little bit discouraged. No wonder. Her salary is 80 a week at the office where she works, and she has to live on 20 cents a week. The problem of saving enough money for her Southern trip out of what is left from her meagre income after the weekly expense has been paid is one that might stagger a financial genius.

The present system of "managing" play by sending out several companies when the popularity of the piece is at its height, has a decidedly comfortable effect upon the bank account of the playwright. The official figures which have just been published show that two of Mr. Benson Howard's plays, "The Henrietta" and "Shanandoah" netted him the big income in one year of \$80,000 royalties. This would have been considered a fast fortune for a man to earn in a whole lifetime at play writing a few years ago.

There is no romance in the stories of suffering and privation to which Mr. O'Brien, the Irish leader, has been subjected by the English government in his fight for home rule. He is a man of great mental and nervous energy, but it is the general opinion among Irishmen who know him well across the water that his years are numbered. Five years ago he was about sturdy, and endowed with indomitable strength. Now he is emaciated, bent, with a feverish brightness and his speech is constantly interrupted by a hacking cough which he contracted in jail. Nothing ever abates his enthusiasm or his work, however. It is his sincerity that he owes his enormous influence with the Irish people.

The sleeping car berth question has been settled. The upper berths must remain closed when not in use. Such is the mandate of the railroad commission, and it is backed by the dictum of the state supreme court. Consequently it is binding on all sleeping car ports within the boundaries of Minnesota.

The case in which this decision was made is a rather a celebrated one, that of the St. Louis railroad, the state railroad commission. The order was first issued to the St. Louis, which denied the commission's right to make it, and decided to make the matter a test case. So heretofore the porters on all sleeping cars smile and say "Yes, sah, sah," when asked to put up an unemployed upper berth.

THE REPUBLICAN SIDE.

Anoka Union: The Union is one republican paper which does not believe the republican party has walked away in Minnesota in the coming campaign. If success is gained this year hard and faithful work must be done.

Laneboro Journal: The alliance has endorsed Hiram, the democratic nominee for state auditor. It is now evident that the alliance state ticket will fly as a tail to the democratic kite, and therefore the republican party must make a single charge against it. The leading men in the alliance were his most enthusiastic admirers until they were struck with this "new idea." The farmers of this county and state who have enjoyed the benefits of Governor Merriam's efforts in their behalf will be slow in casting a man overboard who has been tried and found competent and picking up a man about whom they know nothing.

Rushford Star: No taxpayer should forget that it was Merriam who put the economic brakes on the last legislature and prevented appropriations in excess of the actual needs of state institutions. On any gentleman object to this business-like administration of public affairs, much less a republican. The republican party is proud of the record made by Governor Merriam.

## THE MENDELSSOHN.

The Mendelssohn Quintet club concert last night was a source of delight to those who were fortunate enough to be present, although in view of the exceptional merit of the entertainment it is a pity that their number was not greater. At no time has the popular string sound caused by the electric motor been more offensive than it was last evening, and the sympathies of the audience were most assiduously with Mr. Ryan in his vain attempt to have it remedied.

The quintet for strings by Beethoven is a melodious, smooth-flowing composition, starting out with a strongly-marked theme, to which it returns after a beautiful slower movement. It was skillfully played by the club, the strong lead of Mr. Schmitzer being felt throughout. On account of the illness of Miss Barnard her first number was changed to a "Chopin Mazurka," which she sang with all the dainty grace the music and words deserved. Her voice is a very pure, round, sympathetic mezzo soprano, clearly and, and proved most enjoyable and satisfactory, except in a few of the upper tones. Her enunciation is especially worthy of praise, every word being heard with perfect distinctness. For encore she gave "Auld Lang Syne."

The solo of Mr. Paul Jenkinson was from "The Daughter of the Regiment" and was very pleasingly received by the audience. It was a beautiful performance of a very difficult piece, and Mr. Ryan's playing was most sympathetically interpreted and with its wealth of harmony and luscious tones and counterpoint it was a great and enjoyable study. Mr. Jenkinson's flute solo was a technical and a very difficult one, but Mr. Ryan's playing was most sympathetically interpreted and with its wealth of harmony and luscious tones and counterpoint it was a great and enjoyable study.

## ODDS AND ENDS.

There are 35,750 disabled soldiers pensioned at \$2 per month—\$24 per month. Loss of both hands entitles the loser to a pension of \$100 per month. Twenty-seven widows and two daughters still draw pensions on the Revolutionary war rolls.

It is said that 500 men are employed in the construction of the railway bridge used in connection with the work on the Nicaragua canal. Several miles of track are already laid.

The cornerstone of the Woman's Temple, Chicago, will be laid Nov. 1 with much imposing ceremony. The principal addresses will be made by Francis H. Willard and Senator T. W. Palmer of Michigan.

The discovery of anthracite coal in Pennsylvania is to be commemorated by a centennial celebration at Summit Hill, Carbon county, in September, 1891. The centennial a monument will be erected to the memory of Philip Glastier, a wandering German hunter, who found "stone coal" at the point designated.

Milwaukee's Contribution to the Cause Milwaukee Wisconsin: Milwaukee beer is winning the way in Mexico against pulque and mecal, and is finding its way to throats in the Latin American countries which have heretofore been irrigated exclusively by fiery and dangerous drinks. On the ground that the winning of drink from Mexico and South America may be regarded as a contribution to temperance, Milwaukee beer on its way to Mexico and South America may be regarded as a contribution to temperance, Milwaukee beer on its way to Mexico and South America may be regarded as a contribution to temperance.

The Longest Pole. Minneapolis Journal: There is probably no member of the present legislature who can point out more results accomplished for his own district than Representative Comstock of the Fifth Minnesota. That is one of the facts of the opposition to Comstock must face in this campaign and they will find it a mighty troublesome thing to keep out of sight. A record like that is as good as a long pole in a peevish grove.

## STEALING ON BIG FORK

Alleged Timber Thefts as Viewed by a Lumberman.

## WHO DOES BUSINESS ON THE RIVERS

The Expedition Exaggerating Its Conquests; Lumbering and Further Developments in That Section.

"Just back from a five weeks' trip to my logging camp, up Little Fork and many river region about which there is so much talk just now of Canadian timber robbery and where the government has got an expedition smelting around for the thieves," said O. W. Saunders to a Herald reporter last evening. "The season has been fairly good and the timber cut this year exceeds that of last by about 100,000 feet."

The logging camp of Bailey & Saunders is located on Bear river in northern Itasca county, perhaps forty miles north-west of Tower and over 100 miles in a direct line from Duluth, and the timber in that section, owing to the river system—the only present means of transportation—must necessarily find its way to Canadian markets. It is in that neighborhood that the government expedition has been sent in quest of alleged Canadian timber thieves, which is accompanied by a newspaper correspondent. When questioned regarding the reported depredations, Mr. Saunders replied:

"I think the Pioneer Press correspondent must be a pretty sensational young man or else someone has been stuffing him. I have never known of any timber being stolen in our section, and I've been logging there for years. Our firm and that of Loper & Rumery are the only lumbermen up there and we should be pretty apt to have heard of it if such wholesale work had been going on."

"I don't believe that the total amount ever stolen since lumbering began on the Little and Big Fork and tributaries would amount to 500,000 feet, a pretty small amount when it is reported that the stealing is 18,000,000 feet, for instance. On the Sturgeon river, for instance, where The Pioneer Press says the cut would aggregate 500,000 feet, there are only thirteen flood-jams and it would take a good many thousands of dollars to blast them out. In fact, the only marketable timber there grows up on the head waters and the way would have to be opened before a single foot could reach Loring and the Canadian mills at Port Arthur and Kenora."

On the Bear I have only seen an occasional stump and that close to the bank, making it look as if some timber snatching had been done. On Ryan creek and Bear river, where The Press estimates 7,000,000 feet is taken, I don't believe it is gone to be worth mentioning."

**This Year's Operations.**

The interest awakened by the government expedition into northern Itasca county to investigate alleged timber robbery, and already exploring parties are on the lookout for the precious metal and gold. A party of well-known gentlemen are in that section under the guise of hunting, but, excepting the matter of gold supply, the magnificent silver belt of the woods continues unexplored. A year or two more will probably see unexpected developments in that section. The entire region is tributary only to Duluth, and Duluth should take a warm interest in its development.

**Grand Strike at the Badger.**

A regular bonanza of ore was struck last week at the Badger on No. 3 vein in the upper level. The ore, it is estimated, carries nearly 300 ounces of silver to the ton, and will extend the fame of that mine further than ever.

**Fifth District Politician Talk.**

"Comstock is all right," said J. C. Flynn of Little Falls, to a Minneapolis Journal reporter yesterday. "If Gilliam decides to run it will help Comstock and injure Whitman. From what I can gather, Whitman will not cut in on the Republican vote in Duluth very much."

"Will the Alliance injure Merriam?"

"The Alliance is not strong in this section, but I understand that in the western part of the state it is quite strong. I know of a good many Democrats in my section who have announced their intention to vote for Merriam and against Wilson, because of a speech against the liquor men that the latter delivered when in the state senate. The most prominent saloon keeper in our city will vote against Wilson on this ground."

**Lieutenant-Governor A. E. Rice of Willmar,** circulated about republican headquarters in St. Paul yesterday. Mr. Rice had a lengthy conference with Chairman Heavlee and Senator Clough. Mr. Rice is a resident of the Fifth district, and it is in this section of the state that the principal opposition to Merriam is said to exist. It is becoming evident, too, that Congressman Comstock has got to fight hard. However, no one acquainted with Mr. Comstock doubts his ability to do this. He will be at home the last of this week, and a four weeks' tour in his district will probably result in a great change of sentiment and in Mr. Comstock's re-election. Governor Rice is not taking an active part in the present campaign. People here wondered why he has not.

## FROM THE WEST.

News of West Duluth and West End for the Day.

The Property of Duluth will meet Tuesday at Westminster Presbyterian church.

The republican caucus will be held tomorrow at the city hall from 5 to 8 p. m. Three more new cars were sent East today.

A meeting will be held tonight for the permanent organization of the Scandinavian Investment company.

That was a beauty of an ordinance the council passed concerning the running of cows. Every day engineers on the Short Line have to stop trains in order to chase cows from the track.

**West Duluth Personal.**

Dr. A. P. Huntoon is a new physician who has decided to locate here. He comes from Girard, Kas.

Mrs. H. Stockstrom, wife of the assistant secretary of state, left today for Ashland on the way to her home after a week's visit with Mrs. O. O. Wolf.

L. S. Thomas, Geo. Yeager, William Short and U. S. G. Sharp left today for Winnipeg Junction.

**WEST END.**

John Darling has placed electric lights in his living stable.

Mrs. Horace S. Davis will return this week from St. Paul.

**West End Notes.**

The Grace Methodist chicken pie social last night was well attended and was a success.

The dance at Lewis' hall last night was fairly well attended considering the number of other social gatherings at the time.

Mrs. Chamberlain and children of South St. Mary are visiting Mrs. H. H. Hall.

The entertainment of the Episcopal mission tonight should be well attended. The program of itself should be able to draw a large crowd.

Frank Giesch, brother of Anthony, the butcher, will arrive this evening from Hurley. He has the contract for the electric lights in the new Broadway hotel in West Superior.

J. Roy Helm, son of H. C. Helm, has been working as teller in H. H. Bell & Co.'s bank.

## TRAVEL ON THE FERRIES.

Reaches Figures That Are Most Astonishing.

## THE NEW CHANNEL READY BY NOVEMBER

How the Bay is Deepening Year by Year; A Fine Passenger Boat For the Boaters.

Inspector of Hulls Chalk has been keeping a record of the passengers carried on local ferries and excursion steamers during the summer. He finds a total that is astonishing, especially in view of the tremendous business done by short line trains that compete directly with the ferries on all the more frequented routes.

On the several harbor ferries, the steamer Barker and others in the months of July, August and September returns to the city hall from 5 to 8 p. m. Three more new cars were sent East today.

**THE HARBOR CHANNEL.**

"You may announce," said Harbor Master Miller this forenoon, "that about Nov. 1, there will be a channel fit for loaded vessels between Duluth and Superior harbors along the east side of the harbor. We already have three dredges at work and at least one more will be started there. The channel will be deep enough to let the narrowest of boats pass, and it will be able to take the largest of vessels to and from the city. It will be a great benefit to the city and to the harbor."

## Chautauqua Circle.

Young people of the First Methodist church met at the church parlors last evening and organized a club for the course in the Chautauqua circle the coming winter. Officers elected were as follows: F. H. Pesham, president; Leo Roy Coons, vice-president; Miss Nellie Baskerville, secretary; Mrs. Coffin, treasurer; Mrs. Chas. Smith, critic. The first regular meeting will take place next Monday evening.

## Argentine Joins In.

WASHINGTON, Oct. 2.—The department of state has received a dispatch from the United States legation at Buenos Ayres, announcing that the president of the Argentine Republic has issued a decree accepting the plan for an international railway commission, and has sent a message to congress asking for authority to appoint engineers to attend the conference in Washington this month.

## Deerfoot Banquet Hall.

WASHINGTON, Oct. 2.—The Capital this morning was almost deserted, a few eight o'clockers in the corridors and the returns, as a small army of scrubbers was engaged in the task of cleaning from walls and floors the evidence of the wear and tear of a ten months' session and a few newspaper men wandered around. But everything was dead.

## Over the Clouds.

CLINTON, Mo., Oct. 2.—The C. & R. and Ex-Confederates held a joint re-union at this place today. Addressees were delivered by Col. Leo Baecher and Judge C. G. Burton. Fully 3,000 people were in attendance.

## Transactions in Northwestern Wheat Markets.

## GRAIN RECEIPTS AND SHIPMENTS.

Business Fair and No. 1 Northern Receives Some Heavy Trading; Other Grades Good.

Wheat opened firm this morning and advanced  $\frac{1}{4}$  to  $\frac{1}{2}$  over yesterday. Quotations soon ruled weaker and local prices dropped accordingly. Business was mostly in No. 1 northern both for cash and October delivery.

No. 1 hard ruled dull and unchanged, small business in car lots at 1.02 $\frac{1}{2}$ . No. 1 northern started with good shipping demand, advanced  $\frac{1}{4}$  to 95 and closed steady at 94 $\frac{1}{2}$ . No. 2 northern ruled at 87 $\frac{1}{2}$ . October 1 hard, no transactions, quoted at 1.01 nominal.

No. 1 northern began the day at 95, advanced to 95 $\frac{1}{2}$ , declined and closed at 94 $\frac{1}{2}$ . Dec. 1 hard, very dull at 101 $\frac{1}{2}$ , closed at 101. Dec. 1 northern when all Christians will be united under one denomination and with one creed. The thanks of the convention were expressed for the courteous and extended, and especially for the drive about the city. The report was adopted.

The principal topic for discussion was the matter of amending the articles of incorporation. The special committee appointed for the purpose reported that the action of last year's convention had been rescinded and that all defects had been remedied. The report was adopted and the articles will be filed later.

Just before the noon adjournment a matter came up which caused a great amount of discussion. The Y. P. S. C. E. of the St. Paul denomination in a letter asked that the convention adopt some name by which the denomination should be generally known. As now constituted the church, it was pointed out, was not a denomination, but a union of several names. The committee on resolutions, by W. A. Foster, St. Paul, recording secretary, J. W. Donaldson, St. Paul, corresponding secretary, J. Lane, Merriam Park; treasurer, A. E. Major, Morton; auditor, J. A. Campbell, St. Paul; delegates to the general convention at Des Moines, W. A. Foster, L. Lane, C. E. Holt.

This evening will be an address on "Character Building" by W. A. Foster, and tomorrow will be devoted to Sunday school work and unfinished business. The next meeting will be held at Excelsior the last Tuesday in September.

**New York Barred Out.**  
The Elks at their regular meeting this evening will vote on the question of adopting the constitution formulated at the Grand lodge held in Cleveland July 3. It will no doubt be unanimously adopted, and will bar all members of the New York lodge from attending the meetings of the Duluth lodge, the New York lodge having questioned the legality of holding the convention in Cleveland and refused to send delegates. As a future meeting of all the rituals and documents pertaining to the old regime will be burned and new ones used in the future.

## IN CONVENTION.

The meetings of the Christian Church Society taken up with routine work. Devotional exercises were held this morning by Rev. W. J. Lane of Minneapolis, after which the reports from the different churches were heard. All of them showed a very satisfactory condition of affairs.

This committee on resolutions made its report, expressing sympathy with all branches of evangelical religion, and favoring a union of all Christian denominations, hoping that the day is not far distant when all Christians will be united under one denomination and with one creed. The thanks of the convention were expressed for the courteous and extended, and especially for the drive about the city. The report was adopted.

GOOD TRADE.

We are having a big trade in  
BLACK CHEVIOT SUITS

They seem to have the pull for the present. We see no reason why they shouldn't.

They are Dressy, Serviceable, Cheap.

CHEVIOTS, however, are not the only suits called for. Our FINER GOODS in all lines are going lively. Trade seems to be heavier in the better grades than usual. This doesn't much indicate hard times, as some croakers are prophesying. May be that, money being scarce with some, they come to us to economize. They have found out that they get the best of TAILOR-MADE GARMENTS of us at a GREAT SAVING in cash. We like to feel that from whatever cause increasing trade comes, it comes solely by reason of merit. Our reputation attaches to the goods we sell, not to what we say about them.

## LAKE LEGISLATION.

Legislation affecting the great lakes is the most important and most beneficial that has been enacted for years. In both the river and harbor and railway civil appropriation bills enormous sums were granted for the improvement of the lakes and increasing the facilities for commerce. In the former bill nearly \$2,000,000 is to be spent every year for the benefit of the commerce upon the great lakes.

Among the more prominent paragraphs is the purchase of the Portage Lake and Keweenaw Point canals. This is the water communication across Keweenaw point, Lake Superior, to render the lakes and rivers in the point available to commerce and navigation. For this \$350,000 is appropriated. The importance of this is readily apparent, for not only is the dangerous trip around Manitou island made unnecessary, but a voyage is shortened some seventy miles.

The improvements on locks and approaches at the falls in St. Marys river are to be continued, \$500,000 being appropriated, while \$400,000 is provided for Hay Lake channel. The appropriations are both subject to the proviso that contracts may be entered into for the entire work, to be paid for as appropriations may from time to time be made. This provision is very important in that the work can be proceeded with without being dependent upon annual appropriations. In the sundry civil bill were appropriations of nearly \$200,000 for harbors and light-houses.

The bill extending the jurisdiction of the United States courts over the lakes is one that will prove most excellent. The difficulty of locating the exact position of vessels when crimes are committed upon them has been the loop hole through which many a criminal has escaped. There can be no more of this as the courts can now arrest a man, no matter in what part of the lakes he may have broken the laws of the country.

A bill which has been reported favorably in the house, but upon which no consideration has taken place, is one forbidding the navigating of vessels upon the lakes except under certain conditions. This bill has aroused considerable opposition among lumbermen, but it is strongly favored by shipping people. It is likely to pass next session.

Lighthouses have been erected at several important places and an omnibus lighthouse bill is now pending in the house.

## A PROCESS TO BE WATCHED.

This week began the great meeting of the American Institute of Mining Engineers in New York. Its opening on Monday was attended by the largest delegation of English iron masters that have ever visited this country. A principal feature of the discussions of the meeting was the magnetic treatment of ores, and in presenting the papers the announcement was made that the concentration of iron ore by electromagnetic methods had been brought to a practical stage. During the month of August 3116 tons of ore had been concentrated magnetically at one mine alone, the Michigan mine, during the month of August at a cost of 22 cents a ton. Results have already been obtained to warrant the confidence that during the coming year great advances will be made in this application. The importance of this method in marketing the vast quantity of lean ores, now lying waste or reduced at the barest margin of profit will be readily comprehended. The free ore of the Lake Superior region, it will be of especial advantage, and no city in the country will profit by it more surely than Duluth.

## UNREASONABLE DULUTH.

It is interesting to note in connection with what appears to be a general impression outside that Duluth city water is impure and produces disease, that while there were thirty-two cases of typhoid fever and typhoid malarial entered on the health records for September only two resulted fatally, and these two were in families where the entire water supply was freely used. There is no question that Duluth's water supply has been bad, but it appears to be excellent now. The only fault The Herald has to find with the water supply is that there isn't enough of it, that it doesn't afford the slightest fire protection above Fourth street and cannot be had at all above Fifth, and that it is apparently impossible to keep the new reservoir filled, even to its present completed height. Trifling objections those, of course, the water people may say, but still of some little moment to the citizens who pay for protection and don't get it.

The growth of English republicanism and the blunt freedom of the expression were signally shown up in the late meetings in Scotland, in which Andrew Carnegie, the great American iron master, made some telling speeches. Before the election of Dunlop, an organization whose outspoken motto is "Death to Privilege," Mr. Carnegie made a hearty response from every part of the United Kingdom. "I hope," he said, "that Queen Victoria, who is a good, pure woman, will live so long that before she dies the democracy of my native land will demand to be consulted as to her successor, the mode of his election

and the tenure of his office." That such a sentiment can be endorsed by a great public meeting and its presiding officer, a sitting member of parliament, without calling out denunciation to speak of even from the most ultra Tory journals shows how far the level of republicanism has uplifted public opinion in the mother country. Whether there will ever again be an old-style figurehead on the bow of the English ship of state is already a mooted question.

The general superintendent of the railway mail service has given notice to postmasters that much trouble has been caused by the habit of the public in addressing mail matter to Dakota instead of to North or South Dakota. He asks postmasters to impress upon the people the necessity of properly addressing mail for the two states. If congress or the Dakotas themselves had shown a little more sense, the confusion complained of could not have occurred. Only one of the states should be named. Only one of the states should be named. Only one of the states should be named.

Mrs. W. J. Freeman of St. Paul contributes an erotic poem on "Love" to The St. Paul Dispatch. If Bill Freeman is arrested absolutely devoid of all knowledge of Ramsey county, he'll know the reason why.

One of the most skillful criminal lawyers in the city said yesterday, in speaking of the Murphy murder case: "It is the judgment of the strongest writers on criminal jurisprudence in the world and coincides with the theories which have been held by the great writers of criminal stories from Gaboriau to Charles Reade. It is that an absolute denial in the strongest defense that a prisoner can make of a murder. All of the efforts to prove alibi, substantiate outside plans, and build up elaborate systems of defense, amount to child's play. If the prisoner from the very moment he is arrested absolutely denies all knowledge of the murder and refuses point blank to talk to anybody except his counsel it is the hardest thing in the world to convict him, so matter how strong the circumstantial evidence may be. Nine-tenths of the men convicted on circumstantial evidence for murder have only themselves to blame for their punishment. If anybody has actually seen a man committing the crime and that man swears constantly that he is innocent, the circumstances will never menac him."

The torrid drive was never more beautiful than it is at present. The cool air of autumn has tinged the leaf with gold and russet, and bright colors greet the eye on every side. Every dale and ravine is screened with banks of many colored foliage, and a drive along the road and through the park is most excellent in all her bright loveliness. The boulevard was never more conditioned for enjoyable driving, and many are taking the last opportunity to see the grand view before snow comes. When the system of park ways is completed Duluth will possess a series of parks connected by a boulevard, and the city will be one of the most beautiful in the New West.

Jehous St. Paul people seem to take a delight in circulating stories detrimental to Duluth. A resident of Duluth who formerly resided in the same city states that the report is being freely circulated in St. Paul that the water at Duluth is not only bad, but the next thing to deadly poison. People who take the trouble to investigate this matter can readily see that just the reverse is true. Last month only thirty-two cases of typhoid fever were reported and only two resulted fatally. Investigation by the inspectors also showed that the two who had been using well water.

THE OLD YELLOW PUMPKIN.  
(Phonograph Spirit.)  
How does the heart to the old yellow pumpkin?  
When the winds are driven of stuffing for play?  
When the leaves and apples have been a failure?  
And berries of no kind have greeted the eye?  
How do we return to the fruit of the corn?  
The fruit that our children are taught to despise?  
The old yellow pumpkin, the nut-covered pumpkin.  
The big yellow pumpkin that makes such good pie!

Oh, golden-bued pumpkin, you surely are "in" it.  
You jolly old rascal, so recently spurned!  
We ask your forgiveness for thus having wronged you.  
When from your dear presence we scornfully come rolling down hill, till we meet you and greet you.  
Your bulk is a feast to our fruit-hungry love.  
We love you, old pumpkin, so well we could not but love you.  
For you are a "standby" when made into pies.

Duluth Dress Cutting and Fitting School.  
Pupils taught individually or at their parents' request. Classes at reduced rates. We are also opening a dress-making department (or cutting and fitting only). Ladies of culture investigate for yourselves the superiority of our fit. Wise mothers don't overlook their art in educating their daughters. Ladies earning your own living—no train cutters, liters and teachers who can command highest salaries. Agents wanted. Room 301, 7 East Superior street.

Through to Boston or Montreal.  
The Duluth, South Shore & Atlantic railway now has reservations in the Boerhaave sleeper from St. Paul to Boston and can locate passengers in berths and sell through sleeping car tickets to Boston and intermediate points.

## DEMOCRATIC SHEETS.

Faribault Democrat: Unless there is much change in public sentiment, Mr. Merriam will not have votes enough in Rice county to take him out of the next election.

Crookston Times: Two years ago there was but two papers in the county that supported the democratic ticket; this year out of seventeen papers in the county but six are supporting the republican ticket and these are all papers of limited circulation and small influence.

St. Cloud Times: There is but one way to effect a reduction of the tariff, and that is the election of democratic congressmen.

Anoka Union: No money has the republican state central committee, yet Secretary Tama Bixby throws up a job worth \$2500 a year. Some things don't hit, and this is one of 'em.

The Port Arthur Herald.  
Port Arthur Sentinel: The Port Arthur, Duluth & Western railway is being pushed in good shape just now. American rails, for the first place above the Kaministiquia river, up to the Beaver, have arrived. No one is coming in on every boat to work on the road. The next ten miles of grade is just ready. Another engine is starting from Kingston. The first consignment of English rails has arrived at Montreal, and the whole of the city is covered with men, so that there is no doubt but that the steel will be laid through the end of the city, and on or near Sand Lake, this fall. The Ontario government inspected the second ten miles, and Mr. Murdoch, for the Dominion government, inspected the road to Stanley. The weather is now fair and grading is being rapidly pushed.

Friend St. Louis Globe.  
A bushel basket full of lead pencils, ribbons, school tags, rules, etc., was found under a gutter crossing at an alley on Second street last night. The goods were brought there by a half dozen boys, who could not be caught by the man who was watching them, though he believed he was able to identify several when necessary.

Leading Times.  
The Canadian steamer Miles is loading baryta at McKellars island on the north shore for the United States market. The baryta is a good sort, but it won't be able to get it entered before the new duty comes in force, which will kill this industry. So much for retaliation and the McKinley bill.

A Cure for no Pay.  
All diseases arising from a deranged liver, or from impure blood, as boils, blotches, pimples, skin diseases, scrofulous sores and swellings, inflammation (which is long-suffering) in its early stages, are cured by Dr. Pierce's Golden Medical Discovery, or Golden Syrup, for it will be promptly returned. Sold by druggists under a duly executed certificate of guarantee from the manufacturers.

The Hardy School.  
A college preparatory school for girls. Full term opens Sept. 23, 1890. Day school rooms for the year. The school is located on Third street, between the block. Home school 307 Third street.

Certificate admits to Smith, Wellesley and other eastern colleges; special department in French and German; special attention paid to physical training and deportments in art and music; particular attention paid to physical training and deportments in art and music.

For further information concerning the school apply to Kate E. Hanson, principal, 307 East Third street. Office hours, 12:30 to 2 p. m.

The Lodge Elion Hill.  
Sometimes called the "Force bill," had a hard time in congress. It was not popular with all the republican members, and, of course, the democrats were solidly against it. Road the accommodations of the friends, and you would think it the greatest of political blessings; listen to the enemies and you would believe it was the most vicious and abominable legislation ever proposed. Probably there is a man between these two opinions, and the bill is not wholly good or wholly bad. It takes no "Force bill" to convince the public that "The Burlington" is a perfect among railroads—a single line that settles the question. There are no two opinions about the claim that it constitutes the best, quickest and most direct route between all prominent cities and towns in the West. As a route from Minneapolis and St. Paul to Chicago and St. Louis it is unrivaled and its tickets will be found for sale by agents of all connecting lines as the favorite of all travelers. For tickets, rates, time tables and any information, call on your nearest ticket agent or write to W. C. Kenyon, Gen. Pass. Agent, C. B. & N. R. R., St. Paul, Minn.

Extra Liability to Material Infection.  
Persons whose blood is thin, digestion weak and liver sluggish, are liable to the attacks of malarial disease. The most trifling exposure may, under such conditions, infect a system. If healthy, would resist the malarial infection. The only way to secure immunity is to tone and regulate the system by improving weakened digestion, enriching the blood and giving a wholesome impetus to biliary secretion. These results are accomplished by nothing so effectively as the Hostetter's Stomach Bitters, which long experience has proved to be the most reliable safeguard against fever and ague and malarial disorders, as well as the best remedy for the Bitters are, moreover, an excellent invigorant of the organs of nutrition, and an active depurant, eliminating from the blood those acid impurities which originate rheumatic ailments.

ST. PAUL AND MINNEAPOLIS EXCURSIONS.  
Minneapolis Exposition.  
The St. Paul & Duluth railroad will sell excursion tickets to St. Paul and Minneapolis to Minneapolis exposition, commencing Aug. 27, 28 and 30, Sept. 2, 4, 5, 6, 10, 11, 12, 13, 15, 16, 20, 21, 22, 23, 27, 30, and Oct. 2 and 4, good to return until Monday following date of sale, for rate of \$5.

Minnesota State Fair.  
The St. Paul & Duluth railroad will sell round trip tickets for this occasion, Sept. 5 to 13 inclusive, good to return until Sept. 15, for \$5. For tickets call at 426 West Superior street, Twentieth avenue depot, or Union depot ticket office.

Excursions for Home-seekers and Others.  
On Sept. 23 and Oct. 14 the Great Northern line, Eastern Minnesota railway, will sell tickets at the one-way fare for the round trip to 525 to the new line in Minnesota, North and South Dakota, Montana and Iowa. Also to points in Nebraska, Kansas, Indian Territory, Colorado, Wyoming, Idaho, Utah, Louisiana, Alabama, Mississippi, Texas and Arkansas. Full routes and particulars call on C. J. O'Donnell, city ticket agent, 426 West Superior street, Spaulding hotel, or Great Northern depot, corner Sixth avenue west and Michigan street.

## WORLD OF COMMERCE.

## Transactions in Northwestern Wheat Markets.

## GRAIN RECEIPTS AND SHIPMENTS.

Business Fair and No. 1 Northern Receives Some Heavy Trading; Other Grades Good.

Very little life characterized today's session. Locally nearly everything was slow, the future especially. The main business was in No. 1 northern for October which changed hands freely early in the day. The increased trading in No. 1 northern at the "speculative grade" in the market bids fair to be the special feature in handling the present crop.

Cash No. 1 hard did a small business in car lots early at 100 1/2 and remained at that price. No. 1 northern followed at 94 1/2. No. 2 northern sold first at 89 1/2, later at 87, where it closed. No. 3 spring remained unchanged at 73. October 1 northern was dull and closed 1/4 off at 100 1/2. October 1 northern opened 1/4 up at 94 1/2, advanced to 95 under good trading and closed at the opening figure. December 1 hard scored 1/4 advance at 101 1/2, where it closed. December 1 northern was neglected, 93 1/2 quoted. May wheat very dull, no transactions, closed nominally at 107 1/2 for 1 hard and 102 for 1 northern.

Today's Movement.

Inspection: No. 1 hard, 24 cars; No. 1 northern, 30; No. 2 northern, 25; No. 3 northern, 15; No. 1 winter, 15; No. 2 winter, 10; No. 3 winter, 5; No. 1 spring, 10; No. 2 spring, 5; No. 3 spring, 5; No. 1 fall, 10; No. 2 fall, 5; No. 3 fall, 5.

Chicago Close.

Chicago, Oct. 3.—115 p. m. close.—Wheat: No. 1 hard, 100 1/2; No. 2 hard, 94 1/2; No. 3 hard, 89 1/2; No. 1 northern, 101 1/2; No. 2 northern, 94 1/2; No. 3 northern, 89 1/2; No. 1 winter, 101 1/2; No. 2 winter, 94 1/2; No. 3 winter, 89 1/2; No. 1 spring, 101 1/2; No. 2 spring, 94 1/2; No. 3 spring, 89 1/2; No. 1 fall, 101 1/2; No. 2 fall, 94 1/2; No. 3 fall, 89 1/2.

Live Stock Market.

Chicago, Oct. 3.—Cattle receipts, 12,000, made up of 200 Texas, 100 range and 10,000 head of native. Business fairly active and prices unchanged as compared with yesterday. ## AIR SHIPS ARE A FACT.

At Last a Company That Believes Them to be.

## A CHICAGO \$200,000 CONCERN.

To Build Air Ships on a Plan That Will Sail the World in Five Days.

CHICAGO, Oct. 4.—For a week past a dozen gentlemen have been gathered at the Grand Pacific in earnest discussion of a plan which sounds like a tale from the Arabian Nights. It carried out, and \$200,000 have been paid in to say that it will be their scheme will result in making railroad trains appear like mere stage coaches, will make the transportation of the mails almost equal to telegraph, allow a business man to have his office in New York and yet live in Chicago with no more inconvenience than if his home was just around the corner.

The tourist will be permitted to leave any point in the United States one day and arrive in Europe the next, and any one may have the opportunity of leaving Nellie By back in the middle ages by making the circuit of the globe in five days. The project was completed yesterday afternoon and today at Springfield the Mount Carmel Aerostatic Manufacturing company will be chartered with a capital of \$200,000.

Within sixty days the first air ship is to arrive in Chicago. The company is backed by a powerful English syndicate and by eastern capitalists. Both these interests having representatives at the Grand Pacific meeting.

The incorporators, however, are the inventors, E. J. Pennington and Richard Butler, of the Mount Carmel Machine & Pulley works, W. C. Dewey of the Grand Rapids Furniture company, of Grand Rapids, Mich., E. L. Chamberlain and James A. Fugh.

The proposed air ship, models of which have been successfully tested, will carry the size of the Pullman and will contain fifty persons each, special cars being manufactured for quick mail and passenger service.

## PHENOMENAL ACTIVITY.

The Weekly Trade Review of Dun & Company.

New York, Oct. 4.—R. G. Dun & Co. today say that never before has there been in any month so great an increase in the circulation of a large payment of public debt. The aggregate circulation is now \$1,492,072,709 having increased \$62,093,761 in September. Money markets in all parts of the country have returned to ease. Domestic trade is improving in all directions, and at least for the time there is also improvement in exports, which now show for the past month a gain of 7 per cent over last year at New York.

Of the magnitude of domestic trade, it appears that actual payments through clearing houses outside New York were in September 16 1/2 per cent greater than last year. This is partly due to higher prices for the general average of commodities has risen 1 per cent during the past week.

Sales of iron ore at Cleveland this far this year are 8,500,000 tons, exceeding last year to date by one-third. The iron market is singularly sustained, in view of unprecedented production, by the demand for plates, bar, sheet, and structural iron and steel.

Copper is firmly held at 17 cents, and lead is 5 1/2 cents. Cotton and coffee have been unchanged in price.

The business failures occurring throughout the country during the past seven days number for the United States 166, and for Canada 31, or a total of 197 as compared with a total of 219 last week and 190 the week previous to the last. For the corresponding week of last year the figures were 206, representing 172 failures in the United States and 34 in the Dominion of Canada.

Crooked Hotel Clerk. DENVER, Col., Oct. 4.—The Glenarm hotel was taken possession by the sheriff yesterday, ruining M. G. M. Stanton and Miss Leatline. Connors who opened it two years ago. The clerk is charged by the ladies with being the cause. He has vanished, and experts are trying to unravel his marvelous system of book-keeping. The amount of his defalcation will never be known. He had over 200 guests. Clerk Mesick was formerly secretary for Millionaire Ryan of St. Paul and afterwards ran a saloon in Chicago.

## SOLD BUTTERINE.

And Will Abandon the Calendar of the United States Court.

Albert F. Christian, local manager for Armour Packing company, was arrested yesterday on a bench warrant issued out of the United States district court.

He was indicted by the last grand jury for selling butterine without paying the license of \$489 imposed by law. After an examination before Judge Carey he was held to the United States district court, which convenes in Duluth Oct. 11, under \$500 bonds.

A Peculiar Explosion. CHEVROT, O., Oct. 4.—A peculiar accident occurred here last night. The town is lighted with gasolene. Edward Connor, one of the lighters, had just started on his trip in the light car. In the car were ninety-two cans of gasolene. One of the cans became lighted and the whole lot exploded. The man, badly burned, was thrown from the wagon, while the horse, on fire, ran through the streets screaming in its awful agony until it dropped dead.

## THE DAY'S FACTORY CROP.

Two More are to be Added to Those Coming to Duluth.

## ANOTHER LARGE FURNITURE CONCERN.

And a Company That Will Make all Grades of Portable Houses; Two Good Firms.

The St. Louis Improvement company has secured two more industries which will begin the manufacturing enterprise of the new town of St. Louis. These are both wood manufacturing concerns, one a furniture factory and the other a ready-made house company. The furniture factory will employ 150 to 200 men, and will turn out all grades of furniture. At the head of the scheme is a Grand Rapids, Mich., furniture manufacturer and the agent, outside the St. Louis company, is held principally by Chicago parties. The concern is an excellent one.

The ready-made house company is the first ever established in the West. The manufacturer of these houses is a Virginian, who is also the patentee. He comes here on a contract to erect a plant for the erection of ten houses a day, and will employ 175 men. The houses are made entirely in the factory, and the parts are moved, grooved and dovetailed so as to go together without the use of nails. When the house is erected it is then ready for plaster and finish. They are made from a cost of \$250 up to \$2000 house has been put up in three days. The patentee now has factories in Virginia, New York and New Jersey, and is turning out over 10,000 houses a year.

## THEY'VE WAITED.

Mr. Wainwright Talks on the Duluth & Southern Road, a Bridge Bill.

Next Session.

"We have been delayed in beginning work on the Duluth & Southern road from St. Louis southward," said Mr. Wainwright, a Harvard man, "by the slowness of our surveys, and also by the difficulty of finding a chief engineer. The first two or three miles of road are difficult to build, and it needs an experienced man to put the line through on proper grades."

But I think we have matters now so shaped that the first dirt will be turned next week, and we will make grading pile up before snow comes.

"At the next session of congress," continued Mr. Wainwright, "a bill will be introduced asking for authority to build a bridge across the river between St. Louis and New Duluth. This bridge may be used by all railroads, and it will probably be constructed with wagon and foot ways. I do not anticipate any objection to building such a bridge."

"Next week President Hubbard of the Red Wing & Southern and W. C. McClure, a heavy stockholder in the road, will be here, and their preparations for active work will begin."

## NO MORE ORE.

A Cause of Stoppage at the Mines More Important Than Vessels or Crowded Docks.

LAURENS, Mich., Oct. 4.—[Special to The Herald].—The mining companies of Marquette county last night returned an answer to the miners' petition signed for five shifts night work and an eight-hour day on Saturday, refusing the request.

The day shift men here will quit at 3 o'clock this afternoon and the night shift men will not go to work at all tonight. There are 4000 miners in Ishpeming and 10,000 in the county. The relations between the miners and the men are somewhat strained.

## NO TROUBLE LOOKED FOR.

The New Tariff Law Expected to go Into Effect Easily.

WASHINGTON, Oct. 4.—The treasury department was closed today of respect to the execution of ex-Secretary Thomas of Maryland. Secretary Windom and others spent the day there in conference over questions that have arisen in regard to the execution of the new tariff law, which takes effect today.

Several importers desirous of receiving the full benefit of the new tariff rates applied to the treasury for permission to enter their goods up to midnight of Sunday. Assistant Secretary Spaulding has informed them that this is a matter entirely within the discretion of the collector.

John Spaulding said today that he did not anticipate any trouble with regard to the execution of the new law by reason of the failure of customs officers to receive official copies, as entries made under the present law can be readily liquidated.

## NATURAL GAS THE CAUSE.

JOHNSBURG, Pa., Oct. 4.—At 5 o'clock this morning fire broke out in the business portion of the place. Present loss is \$40,000, half covered by insurance. Natural gas started the fire.

## BRIGHT BREAKING DOWNS.

WOODBORO, Oct. 4.—Birchall is said to be at last beginning to realize his impending fate and to be showing slight signs of seriousness.

Wiggins & Carlin, 16 East Superior street, are meeting with merited success in the sale of standard make pianos. Another of those handsome Decker Bros. pianos in Cressman walnut was purchased yesterday by William Craig, a student of the Duluth Gas & Water company. Other parties who desire fine grade instruments should certainly call on Wiggins & Carlin before closing trade elsewhere. See add in another column.

## WILL MAKE IT GOOD.

ASHLAND, Wis., Oct. 4.—[Special to The Herald].—Barley B. Scott, treasurer of Ashland county and one of the most prominent republican politicians in Wisconsin, is short in his accounts about \$10,000. Scott has turned over all his property to his bondsmen, who are now running the office of treasurer and promise to make good the deficit next month. Scott was a candidate for the republican nomination for state treasurer.

## A VIOLENT BIRD.

GRAND FORKS, N. D., Oct. 4.—The 9-year-old son of Ole Hogan, a farmer residing a few miles south of Grand Forks, was attacked by a monstrous bird, which repeatedly swooped down on him, severely lacerating his hands and face with its bill and talons. The boy used a stick he carried to ward off the bird, and finally with one well-directed blow on the head killed it.

## SOME ACCIDENTS.

Several Wrecks and Fatalities Finish the Week's Record. Remotely.

FEW PEOPLE ARE KILLED. Kewauqua, Wis., Oct. 4.—While a freight and passenger train were passing, a side door of a car on the freight flew out in such a manner as to strike the other, breaking several panes of glass. Mrs. Wagoner of Oshkosh, wife of the engineer of the freight, was struck in the forehead with a piece of the sill, fracturing her skull. She is not expected to live.

TWO MEN KILLED. JOLIET, Ill., Oct. 4.—A bad wreck occurred a few miles east of Joliet yesterday, caused by the collision of two freight trains in a dense fog. Edward Kern was killed and Clark Kelly badly bruised and one leg was broken. Both are from Kalamazoo, Mich., and were traveling together in a freight car with their household goods en route to Texas.

BADLY SMASHED. WADSWORTH, Ind., Oct. 4.—A serious head collision occurred on the Cincinnati, Wabash & Michigan railroad at Linwood. Freight train No. 14 was backing on a siding to get out of the way of the north bound express. The express crashed into the freight, completely demolishing both engines and slightly injuring the engineers and firemen. The passenger car on the passenger train telegraphed the tank of the engine and the first passenger coach was completely broken up. No passengers were injured.

ANOTHER IN MONTANA. HELLENA, Mont., Oct. 4.—A serious wreck has occurred on the Northern Pacific near this city to the east bound passenger train. Freight train No. 14 was backing on a siding to get out of the way of the north bound express. The express crashed into the freight, completely demolishing both engines and slightly injuring the engineers and firemen. The passenger car on the passenger train telegraphed the tank of the engine and the first passenger coach was completely broken up. No passengers were injured.

GRANDLY OBLIVION. DULUTH, Oct. 4.—At Tipperary this morning Mr. Redmond, counsel for Messrs Dillon and O'Brien, asked that the adjournment be taken place this afternoon. He stated that he and his fellow counsel, Mr. Timothy Healey, had an engagement with the district court at 2 o'clock. Mr. Rosen, prosecutor for the crown, opposed any delay. The presiding magistrate, Mr. W. J. Dewey, said he would adjourn until the physician who was attending Mr. O'Mahony could be heard from as to his patient's condition.

ST. JOHN, N. B., Oct. 4.—A conservative mass meeting was held last night. All the ministers in their speeches made lengthy references to the McKinley tariff bill and declared that Canada would prosper in spite of it.

## NEW GOLD DISTRICT.

Will Soon be the Seat of Extensive Operations.

DENVER, Col., Oct. 4.—The reported finding of gold deposits near Saratoga, Colorado, Wyoming, has been confirmed by a number of persons who have visited the camp.

Gold Hill, as the new camp is called, is located in the San Juan mountains. Prospecting has been going on for years. Up to this time fifteen separate gold leads have been located. The quartz lies in well defined veins and the leads are from several hundred to several thousand feet in length. It is believed that the latest find of ore will run at least \$1500 to the ton.

BIG DEMOCRATIC DEMONSTRATION. KNOX, Iowa, Oct. 4.—The great tri-state democratic rally takes place this afternoon, and the town is crowded with contingents from Illinois and Indiana. The principal speakers will be ex-Governor Palmer of Illinois, ex-Governor Gray of Indiana, and Governor Boyce of this state.

His Son Found Him Out. NEW YORK, Oct. 4.—Ernest Rial, cashier of a business house in Omaha, was arrested this morning as he was going aboard the steamer Servant. Rial is an embezzler.

## Are Ample Protected.

PITTSBURGH, Pa., Oct. 4.—Business circles here were greatly agitated today by the announcement that \$50,000 in notes of Fleming Brothers had been protested. Fleming Brothers are manufacturers and wholesale dealers in proprietary medicines. John L. Teno has been appointed receiver. Their estimated liabilities amount to \$500,000 with assets of at least \$1,000,000 and it is stated that the affair will be adjusted and the firm go on.

The Cincinnati Sale Goes. CINCINNATI, O., Oct. 4.—A meeting between Secretary Brunell of the Players league, and President Stern of the Cincinnati club, was held this morning to complete the sale of the Cincinnati club to the league. The consent of the players to go with the Brotherhood is not yet obtained, and this causes some hesitancy but the prospects for closing are said to be good.

## WILSON TALKS.

The Democratic gubernatorial Candidate Gives a Few Interesting Pointers.

"I have been out only a week and have been unable to see very much of the situation in the state," remarked the Hon. Thomas Wilson to a Herald reporter early this afternoon.

During the week I have visited several cities in northern part of the state. At Brainerd I was unable to tell much about the situation, as I am not familiar enough with the people. But at Pegasus Falls and Crookston I did find a decided change from the situation two years ago. The alliance, in a great measure, has been instrumental in bringing about this change.

"Those who say the alliance is going to pieces do not know whereof they speak. The alliance is stronger than ever and they are gaining their strength from the republican party. If Mr. Owens should die today and the alliance put up another candidate for governor, the vote would not go to Morrian."

"The farmers do not want a high protective tariff, and they have studied this question so much that it is thoroughly impressed upon their minds, and they are not going to vote for republicans who in favor of this measure. The Scandinavians are going to support Owens in large numbers, and the people will be surprised at the vote he will receive in the northern part of the state."

## A GREAT SCHEME.

English Syndicate Agents Speak Vaguely of "What is to Come."

MONTREAL, Oct. 4.—Capt. Hamilton Gunn of London, who was reported to be in Canada in the interests of the Inman Steamship company, says: "The dispatch is erroneous from beginning to end. I have been out West in the interest of English capitalists who propose to spend a large sum of money upon the Michigan side of Sault Ste. Marie. This is but a link of a great enterprise, which is backed by £12,000,000."

"All I can say is that the scheme embraces a railway through Canada with a terminus in Nova Scotia and also a connection with New York city. It is proposed to build Atlantic steamers of not less than 10,000 tons and by utilizing the land and sea route, New York will be brought within four and a half days of England. I may also add, that steamers will likewise be put on Lakes Huron and Superior to the city of Duluth."

Result of the Conference. "Bartholomew," inquired a fellow reporter, "what have you been doing in the managing editor's room?" "Been holding a consultation with him."

"About the management of the paper?" "Any change in its policy contemplated?" "Yes that's what the consultation was about."

"What was decided upon, if you don't mind telling me?" "It was decided," said Bartholomew, "twisting his mustache gloomily, "that the paper didn't need me on its pay roll any longer."—Philadelphia Press.

To Say "No" Not Proper. From the German: "Ah, my lady, if I were to ask you for your heart and hand, do you think you would say 'no'?" "To be sure I would," because even a little girl I was taught that to answer questions with a plain 'no' was very unmannerly indeed."

Smith, Farwell & Steele, Profit Sharing With Our Customers.

When we opened up our large Furniture and Carpet store in Duluth we calculated upon the percentage of profit on an estimated amount of business, necessary to pay fixed charges, such as rent, fuel, clerk hire, etc., and small interest on capital invested. Thus far business has exceeded our expectation and we have decided upon a method of profit sharing with our customers. For instance we shall single out from our vast stock one line each week and offer it at a figure below regular prices. Bear in mind our prices are always low—quality of construction being considered. That cannot fail to attract the attention of people in want of furniture. This week the cut will be on Sideboards, an article of furniture necessary in every household. We have a variety of forty-five patterns, beautiful oak goods in all the newest styles of finish. All bought for fall trade. We classify and offer them for the week at the following reduction in prices: Class A. 1 Oak Sideboard, price, \$15, less 10%, will cost you now \$13.50. 2 Oak Sideboards, price, \$30, less 10%, will cost you now \$27.00. 3 Oak Sideboards, price, \$45, less 10%, will cost you now \$40.50. 4 Oak Sideboards, price, \$60, less 10%, will cost you now \$54.00. 5 Oak Sideboards, price, \$75, less 1

It is a little volume of (less than 20) pages, heavily printed by the government and I think is going to be a rapid seller and a great thing. It is compiled from notes on file at the census bureau mainly regarding the interrogatories issued by consent and connivance of the government relating to inebriance of property and other private matters. The publication of the book reveals for the first time the answers given by the government. Acting upon the hints already given by thrifty publishers and syndicates, who write to eminent people occasionally asking them how they earned their money, the writer has been able to get it, yet, and if so, whether they would be willing to loan some of it, etc., the bureau has its drawers now full of statistics, as you might say, and the writer is going to publish this book as soon as I have looked it over carefully and done some expurgating. Mr. Wanner says he will cheerfully put it on the market and I am sure it will be successful and see that it is pure.

## A GREAT UNDERTAKING.

Sod is Turned for the Harnessing of Niagara.

### AGENT LEAHY'S ANNUAL REPORT.

The Condition of the Noble Chippewa of Western Wisconsin and Northern Minnesota.

NIAGARA FALLS, Oct. 4.—The ceremony of turning the first sod for the Niagara Falls tunnel took place at 10 o'clock today. The officers and engineers of the Cataract Construction company and Niagara Falls Tunnel & Power company will meet at Tenth street, where shaft No. 1 will be sunk, each one taking out a shovelful of earth on a plated shovel. The ceremony will be made the occasion of a general jubilee. A reception will follow at the Cataract house. The Cataract Construction company was awarded the subcontract of constructing the Niagara Falls tunnel in July, 1889. Since that date the company has been busy preparing for the mammoth undertaking—a precedent in subterranean hydraulic architecture. The tunnel is to start at a point below the falls under the suspension bridge, extending through the rock to the upper river, 5700 feet, where a head of 120 feet can be obtained. It is required that 150,000 horse power shall be developed, and it is probable that the power thus obtained will be transmitted by turbines wheels to electrical machines when its utilization will be comparatively simple. The tunnel is to be 25½ feet in diameter, with a semi-circular top nine feet radius and straight sides. The fall will be thirty-six feet to the mile. The company owns 225 acres along the river suitable for mill purposes, seventy-five under water adjacent and 1100 between La Salle and the Falls. The undertaking is theoretically practicable, since the power required is only one-fifth of 1 per cent of the total estimated power of the Falls. Yet the successful completion and practical working of the tunnel and accompanying apparatus is almost beyond the comprehension of the mind.

**AGENT LEAHY**  
Makes His Annual Report on the Condition of La Pointe Indians.  
WASHINGTON, Oct. 4.—United States Indian Agent Leahy, at La Pointe, has submitted his annual report in which he describes the condition of the Indians on the seven reservations in Wisconsin and northeastern Minnesota in his charge and makes recommendations for their future care and education. The report shows that, in 1889, 10,125 Indians in Wisconsin, most of the rest being on the Fond du Lac and Vermilion reserves near Duluth.

Of the entire number, 127 are males above 15 years, 1573 are females above 15; 1188 are children of school age. Much suffering last winter is reported, partly in consequence of the suspension of lumbering operations and partly of the grip. The farming operations of the Indians are advancing very slowly owing to the need of tools, stock and plowing. Their ground once plowed, the women till the ground well and raise good crops of potatoes, etc. This year 21,300 bushels of potatoes and 1192 tons of hay were produced. The Indians own 311 head of cattle, 181 horses and 92 hogs. No allotments of land were made last year and the Indians are anxious to own lands in severalty. The agent urges further allotments with proper caution against the Indians selling off the timber and failing to clear up the land for farms. He says the Indians have always wasted the money received from the sale of their pine. Thus far, on the Bad River, Red Cliff, Lac Court O'Reilles and Lac du Flambeau reservations, there have been 93 allotments, covering 64,410 acres. The schools in the various reservations show little progress. The practice of furnishing a noon lunch has been found to help in increasing the attendance. Agent Leahy says boarding schools ought to be established on the Flambeau and Court O'Reilles reservations. He also wants the reservation opened by roads under the state authorities. The sale of the pine to save it from forest fires is recommended.

### DIFFERENCE OF OPINION.

The Church Interferes With O'Brien's Manifesto.  
DUBLIN, Oct. 4.—The recent arrest of the Irish members of parliament at Tipperary, and whose preliminary trials are now in progress, has brought about a new feature in the present campaign. It appears that the tenants of what are known as Calve islands held a meeting under the auspices of the Land League, a couple of weeks ago, which was addressed by O'Brien. Father O'Connor, the local priest, opposed the gathering and was in consequence verbally flayed by the redoubtable nationalist. Thereupon, the bishop wrote to the priest asking why O'Brien should lead the tenants where the clergy could not follow him. The holy see, he said, had expressly condemned the plan of campaign, and all were obliged to respect its authority and obey its teachings.

To this Mr. O'Brien has responded in an open letter in words more emphatic than polite. It is feared that the publication of this correspondence will have a renewed tendency of straining the relations between the Catholic church and its representatives in Ireland, and the promoters of the plan of campaign. It is said in ecclesiastical circles that another manifesto from the Vatican on the Irish question will make its appearance at an early date, and in which the present policy of the Irish leaders will be condemned in stronger language than any yet used by the holy pontiff.

### A CONGRESSIONAL CAMPAIGN.

Langley-Breckenridge Fight in the Twentieth Arkansas District.  
LITTLE ROCK, Ark., Oct. 4.—With the endorsement by the republican convention of Leon P. Langley, the farmer and laborer's candidate for congress, to fill the vacancy occasioned by the unseating of John C. Breckenridge, what will, without question, be the fiercest congressional campaign ever fought in the United States has been formally inaugurated. Gen. Powell Clayton proposes to stump the twentieth district. Powell Clayton says that if he can succeed in defeating Breckenridge he will be ready to die. Langley himself will devote his whole time to the stump, and it is feared that the bitterness which now prevails is but a forecast of what is to come.

### FALL FASHIONS.

In fur garments: Redfern's Latest Ideas: Harmony Above all Things in Room Furnishings.

Though it is rather early to be thinking of fur coats and wraps, the prudent woman is she who takes time by the forelock to the extent, at least, of studying the new styles, and making up her mind which of them will best suit her individual peculiarities of face and figure. Herewith are pictured a couple of pretty coats designed by Redfern for the fall and winter trade.

The first is a medium length coat of Persian lamb made with straight, loose fronts and fastenings a little to the right side.

The sleeves are a trifle raised on the shoulders and flare at the bottom in bell shape and the collar is very high, slightly rolled on the edge and fastens with a pointed collar on the left side. A slit pocket is in the left lower corner, and the whole thing, although quite devoid of trimming, is very rich and elegant.

A low-crowned turban with pointed flap on its crown, gives the finishing touch to a most becoming rig.

The other coat as here presented, gives us Redfern's latest in seeking a short coat.

It is a short, straight, belted, be it remarked that it was in answer to a direct appeal made some years ago by the Princess of Wales who was tired of the ugly seal-skin esquires then in vogue, that the noted tailor to whom her royal highness owes much of her style, originated the snug-fitted and elegant coat. In the above illustration it is about the length of the spring coats, and is covering the hips, and springing open a little in front at the bottom. It is covered over the shoulders with a trimming which simulates a cape, pointed on each breast, and fastening with four straps. This, and the cape on the shoulders, as well as the cuffs, are of natural seal, bordered with a roll of the other. The jaunty turban is made to match and is trimmed with an aigrette at the back.

### THE FITNESS OF THINGS.

Furnishing a Room to Harmonize With the Occupant's Complexion.

Only a few years ago there was such a narrow understanding of the niceties of interior decoration that people actually laughed at the idea of furnishing a room to harmonize in general color and effect with the complexion of its occupant, says The Upholsterer. The notion of the color of the dailies were full of decorative jokes; the woman who would dress herself to harmonize with her home surroundings, or, rather, dress her home to harmonize with her appropriate color, or the man who would throw the weight of his individuality into his study furnishings, were held up as subjects for hilarious ridicule.

The trouble was the subject was in advance of the people. But nowadays we cannot affiliate the fair, fat and forty with the old-fashioned ideas of such a room. On the contrary, we think of light maple woodwork, cowhide curtains caught back with pink and blue, cream walls and Japanese rugs. We would say that a girl of a dead matte color who furnished her room in the purple and gold surroundings of such a room. The contrary, we think of light maple woodwork, cowhide curtains caught back with pink and blue, cream walls and Japanese rugs. We would say that a girl of a dead matte color who furnished her room in the purple and gold surroundings of such a room.

### A VISION.

(Edward E. Cothran in The Globe.)

The yellow fire of the orient moon. Buried winter through a haze of golden smoke. The snowy mountain and dew plain. And forest dim like a distant rainbow light. The snow and the sunlit glades in deep. Were filled with the unfamiliar brightness of the sunlit glades in deep. The snow and the sunlit glades in deep. Were filled with the unfamiliar brightness of the sunlit glades in deep. The snow and the sunlit glades in deep. Were filled with the unfamiliar brightness of the sunlit glades in deep.

Where food is thought, and air is holy love. And with an imperishable joy. In all the vastness of these shining realms. I could not pause, but downward swiftly fell. Into the shadows of the waiting night. And gone was the witchery of the world. By dream, a treasure of memory. Blue had passed to midnight—gone was the fairy queen of the mystic moon. And I in solitude was left to wait. The omniscient eye of purple dawn.

To die is gain—For Him.

"Are you afraid to die?" solemnly asked the black-clad stranger of the little man who sat, darning his heels against a packing box in the grocery store. "Not much," replied the little man, promptly, "but I should be if I thought I had got to pay the undertaker's bill."

### THE FIELD OF NORTHWESTERN SPORTS.

Closing of the Ball Year; John Ward Talks of the Future; A Run in Billiards.

THE BOSTON Quintette club and a dismal, dreary representation of "She" have been the engagements at the Temple this week. The two represented the great extremes; unremediable mediocrity and the height of musical art.

All of next week will be taken up with Renfro's "Jolly Pathfinders." The Temple will be opened to popular prices which means that the old familiar S. R. O. card will hang out each night as it did when Eunice Goodrich held the boards. Everyone has seen the "Pathfinders" and although popular prices are on the bills, yet a most excellent entertainment is given. Renfro carries some good people with him and is a self one of the best burnt cork comedians in the business.

Week after next "Little Puck" and Nat Goodwin are booked. The latter will present "The Nominee," "The Book-maker" and "The Gold Mine." Frank Daniels has never been seen here, and that delightful comedy, "Little Puck," will draw out a good crowd.

That sterling exponent of Irish serio-comedy, Scanlan, will open Temple Opera under the Miller regime Oct. 20. After Scanlan comes Duff's company in a repertory of comic opera. Before Duff's, however, the house will remain dark for nearly a week to allow a thorough overhauling and renovation to take place. Some radical changes will take place in the parquetry. The seats will be replaced, giving more room and comfort to the audience. Some redecorating will also be done, new scenery painted, boxes refitted, and when the house reopens it will hardly look like Temple Opera.

### FROM BOSTON.

The Herald's Eastern Correspondent Shifts the Scene of his Letters.

BOSTON, Oct. 1.—[Special to The Herald.]—Monday night the Bostonians began their season at music hall in the new three-act comic opera "Robin Hood" by Mr. Harry B. Smith and Reginald DeKoven.

Mr. Smith has provided a fair libretto for the opera. It is not strikingly original in its story and its situations and here and there it is somewhat disjointed in the characters coming and going for no special purpose except to sing, and doing much that has no bearing upon carrying the story forward upon its course. Among the gems of the work are "The Troubadour," "Sing to the Love," a charming bit of writing, "Nut Brown Ale," "Ninth Greenwood Tree," and the remarkably clever catch, "Oh, see the Lamplins play," the opera is prolific in choruses, and these are invariably well written and effective. The instrumentation is clean-cut, clear and artistic, showing a fine appreciation of orchestral tone color and a musician's skill and discretion in its use.

The performance was smooth and very creditable. The artists were received with much favor, and were presented with marvellously ample floral tributes. In the cast were Marie Stone, Josephine Bartlett, Edwin Hoff, H. C. Barnabee, W. H. Macdonald, Eugene Cowles, George Frothingham and Peter Lang.

Miss Isaacs is the only one of these who is not well-known to our stage. She is a very attractive stage presence, a sweet voice and a pleasing manner, and she made a wholly favorable impression.

### THE DRAMA.

Mrs. Modjeska has accepted a new play, a tragedy, and has made arrangements to star next season. She will manage her own business affairs, using only an advance agent.

The New York Lyceum theater's regular season will open in November. "The Idler," a new play by Haddon Chambers, author of "Captain Swift."

J. B. Addison is writing a new farce comedy for Lydia Thompson, entitled "A Put Up Job." The scenes are laid on Staten island. Miss Thompson will try it on tour in November.

Julia Marlowe was coldly received in St. Louis last week in "As You Like It." It was her first appearance in St. Louis. That city also rejected Mr. Anderson.

### OF SPORTS.

The Hall Season and John Ward on the Next Big Meeting at Chicago.

Minor Sporting Affairs.

The baseball season is nearing a close. Already the Western association has ended its schedule, Kansas City carrying off the pennant. But few clubs have made money this year in the association. Minnesota was some \$10,000 to its credit, Kansas City \$10,000, Milwaukee \$4000. St. Paul has dropped over \$8000, while the Des Moines Lincoln, Denver and Sioux City syndicates are out \$5000, \$2000, \$4000 and \$10,000 respectively. The Western clubs finished as follows:

Kansas City	.....	\$600
Minneapolis	.....	\$500
Milwaukee	.....	\$400
Denver	.....	\$300
Sioux City	.....	\$200
Omaha	.....	\$100
Lincoln	.....	\$0
St. Paul	.....	\$0

Boston and Brooklyn have a snitch on first place in the Player's and the National leagues. There will be a hard struggle between the New York and Brooklyn National league teams for second place. The clubs are wing and wing, and it is hard telling who will take the coveted position. The two leagues stand as follows:

Players League	.....	National League
Boston	.....	Brooklyn
Brooklyn	.....	Chicago
Chicago	.....	Philadelphia
Philadelphia	.....	Cincinnati
Cincinnati	.....	Pittsburgh
Pittsburgh	.....	New York
New York	.....	St. Louis
St. Louis	.....	Buffalo

John Ward, that distinguished exponent of the baseball art, has been talking about the results of the first year's work in the Players league. "Under the circumstances," says he, "I think the Players league has caused to congratulate itself. The results of our first year's work are good, and I have every reason to believe our future will bring us the coveted position. It is impossible to say anything at present about a compromise between the two big leagues, but I think it is probable. The Cincinnati deal is now in statu quo, but we would like to see the club under the present management in the Players league."

The announcement from Philadelphia that a team of America's crack football

players would go to England on Oct. 5 to play a series of over fifty matches has caused a great surprise. Since the report that the Scotch eleven would visit this country there has been much discussion as to the possibility of our men defeating them. It is a hard matter to gauge the merits of American players, compared with English players, but one thing is certain, if a thoroughly representative team was picked to do battle against the Scotchmen our players would be found to hold their own.

It is expected that the Minnesota and St. Paul boat clubs will consolidate. It is confidently expected that Willie Windle will capture first place in the two-mile bicycle race at the championship games of the A. A. U. at Washington, Oct. 11.

Rollo O. Haskins of Dayton, O. leads the world's record at artificial rises made at Corry, Pa. Score, 193 straight without a miss. The best previous score was that of Mr. J. E. Miller of this city, i. e. 163 clay birds.

James A. Ten Eyck offers to row either Casey or Joyce a three-mile race for \$500 a side. He will allow \$20 for expenses. He is also willing to row both of them within a week, the first on Monday and the second on Saturday. A forfeit of \$100 has been posted to that effect.

### BIG ATHLETIC MEET.

English and American Muscle to be Tried Side by Side.

CHICAGO, Oct. 4.—One of the greatest athletic meetings ever held in the West will open at the Park Side grounds this afternoon. It is a contest between the Salford barriers of England and the Manhattan athletic club of New York, combined against the local athletes.

The English team is made up of W. H. Morton, the most wonderful distance runner in the world, T. L. Nicholson, C. Morris, H. D. Morgan and E. N. Parry, while the Manhattan include P. W. Vesting, Mortimer Remington, A. P. Opeand, H. Conliff, W. F. Christie, J. S. Roddy, W. T. Young, the ten-mile ex-champion of America, George Estes, A. W. Ware, C. L. Nichol and L. G. Lange.

The events include a 100-yard run, 200 and 400 yard run, 800 yard run, one-mile run, one-mile steeple chase, one-mile walk and a long jump and pole vault, all handicapped.

They Fight at Daylight.

CHICAGO, Oct. 4.—Local sports are crowding the resorts this morning trying to find the location selected for the fight between Tom Ryan and Con Doyle. The best advice is that it will take place within 100 miles of this city about daylight tomorrow morning. Two ounces gloves will be used.

### A Stick Billiard Run.

Billy Towle, the manager of the Spalding house billiard room, in a match game of three-ball billiards yesterday, playing fifty or no count, made the neat little run of 115. He is preparing for a match with Jule Meyer of Minneapolis, for the championship of the Northwest, to be played about the middle of November.

The Big Duluth

GOOD TRADE.

We are having a big trade in

BLACK CHEVIOT SUITS

They seem to have the pull for the present. We see no reason why they shouldn't.

They are Dressy,

Serviceable,

Cheap.

CHEVIOTS, however, are not the only Suits called for. Our FINER GOODS in all lines are going lively. Trade seems to be heavier in the better grades than usual. This doesn't much indicate hard times, as some croakers are prophesying. May be that, money being scarce with some, they come to us to economize. We like to feel that from whatever cause our increasing trade comes, it comes solely by reason of merit. Our reputation attaches to the goods we sell, not to what we say about them.

## THE POLITICAL ARENA.

Swept Clean Last Night by the Daugherty Forces.

## HOW THE AFFAIR LOOKS TODAY.

Expectations of Several of the Candidates; Political Gossip of General Interest.

Duluth has seldom seen such an antecaucus fight as that of yesterday last and last evening. As a result the primary election brought out a vote of considerably over 2000, larger than that of any local city election. The result was a victory for the ticket headed by the name of F. B. Daugherty for state senator. The Munger ticket carried only three precincts in the city, with probably a few delegates in other wards. Counting only those who are recognized as solid Daugherty men, the delegates elected in the various wards stand as follows: Daugherty, 10; Munger, 11. Daugherty also secured two delegates in West Duluth and sixteen votes in his favor will come from the iron range, so that he will enter the convention with nearly four votes out of a total of fifty-six. The result by precincts was as follows:

First ward—Daugherty ticket, Murray, Grignon, Brown.

Second ward—Daugherty ticket, La Vague, Spencer.

Third ward—First precinct: Daugherty ticket, Cotton, Appel, Reitan. Second precinct: Munger, Burke, Daugherty, Oestreich. Third precinct: Daugherty ticket, Ash, both tickets, Fisher.

Fourth ward—First precinct: Munger ticket, Graves, Fisher, Magie. Third precinct: Daugherty ticket, Ennis, Quinly.

Fifth ward—First precinct: Daugherty ticket, Cox, Skogland. Second precinct: Daugherty ticket, Butcher, McAdam, Lilander. Third precinct: Munger ticket, Zimmerman.

Sixth ward—Divided ticket, Kennedy Morterud.

West Duluth—Daugherty ticket, Olson, Hoyt.

Although the caucuses are over none of the numerous republican candidates are resting on their oars, but on the contrary are continuing to hustle among the delegates. In some instances the results of the primaries was a surprise. Capt. Pressman's prospects for a renomination are not the brightest, and there is considerable speculation as to what course he will pursue. It has been rumored extensively that if he fails to get the nomination he will run independently. The democrats hope that the do this as it would help their candidate very materially. The captain has nothing to say on the subject, but his friends are confident that he will abide by the action of the convention and support the regular ticket.

There was considerable talk this morning to the effect that a movement was on foot to throw off Annes Shapard, but it does not seem to come from an authentic source. The wise men of the party say that they have heard of such move, and that there is nothing in it. One thing is certain, no other name besides Shapard is being talked about today.

Sheriff Sharry may be considered as solid for a renomination, and it will undoubtedly come by acclamation. The name is one for him and the delegates as far as known are in all favor of his renomination.

It looks now as though J. P. Johnson would be able to secure his renomination on the first ballot. E. J. Cressett is still working hard for the nomination, but he goes for anything, "Perky" will have been given thirty-five and forty out of the fifty six delegates in the convention on the first ballot.

The friends of Fred J. Voss feel very indignant over the turn affairs have taken in the contest for clerk of court. Mr. Truesden has a grant many friends who under any other circumstances would be glad to vote for him. But up to the eleventh hour his name had not been mentioned and the list of delegates made out under the supposition that they were favorable to Mr. Voss; and consequently no work was considered necessary to secure a Voss delegation, but now that Mr. Truesden places himself before the convention, they consider that a large amount of work must be done which could have been done much earlier before the primaries were held.

## THE EVIDENCE GROWS.

A Chain That "New Orleans" Will Find Leads to a Murderer.

Gradually the officers are welding a chain of evidence around "New Orleans" Murphy which it will be next to impossible for him to break at the trial.

This morning two boys, who had been with Murphy and the murdered boy on several occasions before the murder was committed, called at the jail. As soon as Murphy saw them he ran into his cell and could not be induced to come out while the boys were in the corridor. They saw enough of him to identify him as the man who was last seen with the murdered boy.

Chief McQuade has gone to Red Jacket in search of the boy who saw the two together on the dock and also saw the man run away after the murder had been committed.

No convention held in St. Louis county for many years has created so much interest as the republican county convention held this afternoon at the city hall. The struggle between the factions has awakened an unusual amount of interest and the outcome of today's convention has been looked forward to with almost breathless anxiety.

Long before the hour set for the opening of the convention, the delegates and friends of the candidates began to arrive and by two o'clock the hall was well filled.

It was 2:30 when Frank Burke, rappé the convention to order and invited delegates entitled to seats to take inside the hall. He read the names of the delegates and John B. Sutherland for temporary chairman.

Long before the hour set for the opening of the convention, the delegates and friends of the candidates began to arrive and by two o'clock the hall was well filled.

John Guiney, C. W. Hoyt, R. C. Kennedy, W. W. Butcher, James Digwell, Monroe Nichols, J. E. Davies, John LaVague, Joseph Sellwood, Geo. Ash, J. B. Cotton, H. C. Kendall, C. S. Fulton, Victor Dash and B. P. Howard.

J. B. Cotton was appointed a committee on select delegates to the judicial convention. He reported as follows: R. P. Edson, J. G. Williams, Page Morris, D. G. Cash, S. F. Sawley, C. P. Craig, C. A. Town, M. A. Hayes, Levi Willcutt, John E. Davies, Dr. Barrett, W. B. Lord, William B. Phelps, Fred Smith, W. N. Draper, C. W. Hoyt and J. A. Hanks.

The next in order was the nomination of county officers. E. L. Fisher nominated for county auditor Geo. N. LaVague, a man who had served acceptably for two years. Capt. Pressnell seconded the nomination and it was made by acclamation.

When the office of county treasurer came up, John McKinley, nominee J. P. Johnson, and remarked that he needed no recommendation. H. C. Kendall said that he took pleasure in presenting the name of a man who had been a lifelong republican; a man who had been in the county poor and now in good circumstances and enjoying good health. He believed that after a long and successful career in the county, the nomination was seconded by E. L. Foster.

For clerk of court, John McKinley presented the name of D. J. Sinclair, and the name of T. J. Pressnell was placed before the convention by J. B. Cotton. The ballot resulted as follows: Sinclair.....28  
Pressnell.....12

Upon statement of the result, the nomination of Mr. Sinclair was made unanimous.

For judge of probate, upon motion of Frank Burke, Hon. Phineas Ayer was nominated by acclamation. The honor of the commission was also helped upon Judge Ayer's.

Upon motion of Capt. Pressnell, W. B. Paton was nominated for register of deeds and he was elected by acclamation.

Mr. Eckland was nominated by acclamation for the office of coroner.

For sheriff, James Digwell presented the name of Paul Sharvy and this nomination was made by acclamation and loud applause.

Mr. T. J. Pressnell was elected for county commissioner, seven, which will be announced later.

Capt. Pressnell introduced a series of resolutions endorsing the administration of President Harrison and Governor Merriam, and the action of the Minnesota delegation at the national convention.

Mr. Munger was recognized for the fact that Mr. Munger is a friend of Duluth and was elected to the legislature for twenty years longer, but he did not propose to go to the convention and add to the list of names.

Upon his motion the resolutions, with the exception of the one relating to Mr. Munger, were adopted. For county commissioners, John Fisher was selected for the third district, and W. J. Bonham for the fourth district.

**THE TIPPERARY COURT**

Convenes Today and Wrangles Over a Prisoner.

**SHORT ADJOURNMENT IS TAKEN.**

**A Tendency to Quibble and Delay Characterizes the Session; Queer Justice There.**

DULUTH, Oct. 6.—The magistrate's court at Tipperary, before which the case of Messrs. Dillon and O'Brien and a number of other defendants who are charged with conspiracy is being heard, resumed this morning. All the accused, with the exception of Mr. O'Mahoney, who is ill, were present, but their counsel, Mr. Rodmond and Mr. Timothy Healey, were absent in consequence of an important engagement.

On behalf of Mr. O'Mahoney, Mr. Dillon presented a certificate from two doctors stating that he was seriously ill and that it was impossible for him to attend the trial. Mr. Rodmond, for the crown, objected to the certificate as not being a valid excuse for the defendant's absence. The court, however, refused to make a court to substantiate the statements that he was ill, and the certificate would have to be accepted as testimony that Mr. O'Mahoney was in no condition to appear before the court and the doctors themselves distinctly refused to come to court to substantiate the statements that he was ill.

Mr. Rodmond asked the court to adjourn for an hour to enable the counsel for the defense to prepare for the charge against O'Mahoney which was withdrawn or an application made for a warrant for his arrest.

Mr. Rodmond stated that the prosecution had telegraphed to two doctors in Clonmel and had sent a third from Tipperary to visit and examine the defendant.

A Break in the Line.

INTO THE BAY.  
A Foreman of the Northwestern Fuel Company is Drowned This Morning at the Coal Dock.

Christian Hansen, assistant foreman of the Northwestern fuel company, was drowned this morning at dock No. 2. The victim of this sad accident was a man of 30 years, and since 1879 he had been in the employ of the Northwestern company.

As several men about the dock were standing near the slip they noticed a float floating in the water. A boat was procured and the corpse taken out. It proved to be Hansen. There were no marks on the body, and the supposition is that he fell off the dock.

A THEATRICAL MUSS.  
An Incident Which Slightly Stirs Eastern Professional Circles.

PHILADELPHIA, Oct. 7.—Trouble is brewing for the management of the Pauline Hall Opera company. In the chorus were a number of decidedly pretty young girls. Three or four of these, it is charged, committed the offense of shaking the Union League club by informing them by letter that they, the girls, would not appear.

**MILLION FOR FACTORIES.**

The Flour City Sees Its Need and Works Hard.

**MINNEAPOLIS GETS ON A HUSTLE.**

**And Puts up a Million Dollars to be Used for Jobbers and Manufacturers.**

MINNEAPOLIS, Oct. 6.—[Special to The Herald].—The business men's union has formed a scheme for the raising of \$1,000,000 which is to be paid out for new manufacturing and jobbing concerns within the next three years.

The scheme is one of the most important that the city ever engaged in, and the payment of that large sum of money is expected to make a great business boom here. The subscribers to this fund pledge themselves to pay the money under the terms of the agreement they sign. They have the privilege of investing it in jobbing or manufacturing and receiving stock equivalent to the investment.

## CITY BRIEFS.

News has reached Duluth of the death of Will De Graft, a young man, at Houghton, Mich., last week. It is believed the deceased had friends here.

Andrew Peterson, the milkman, is building a very nice dwelling on Fifth street and Tenth avenue west. It will cost \$2500.

Brick work on the Woodbridge building is completed, and the plasterers and steam fitters are at work. The building will have the first electric passenger elevator in the Northwest.

The signs of the Marine bank are being changed to read "Marine National bank of Duluth." The concern will not increase its capital stock at present. This gives Duluth three strong national banks whose combined capital and surplus is over \$1,500,000.

Some 200 Duluth people went to Tower and the mines yesterday on an Iron Range excursion.

The regular weekly meeting of the common council will be held tonight. The electric light plant at Scott & Holston's West End mills will be in working tonight for the first time.

The following variations in temperature were recorded at Pioneer fuel company's office, Hotel St. Louis, 320 Superior street: 12 m., 42°; 3 p., 40°; 6 p., 43°; 9 p., 41°; 11 p., 37°; 12 m., 41°. Maximum, 46°; minimum, 36°; daily range, 10°.

Charles Copman, the man who suffered a fracture of the skull two weeks ago, is in about the same condition as on Saturday. While he appears to be a trifle weaker, other symptoms are slightly in favor of his recovery.

One upright Lyon & Healy piano in good condition for sale for \$150.

## THEIR FIRST ANNIVERSARY.

Still More Music Coming For Duluth. Just one year ago the firm of W. J. Dyer & Bro. was succeeded in the music business in this city by the Duluth Music company, Anderson & Lee managers.

The progress which they have made can be readily seen by a glance at the stock of pianos, which a representative of this paper saw in their warehouse yesterday. The number of pianos exceed that of any other house in the city and consist principally of Steinway, Chickering and Ivers & Pond, in grand, baby grand and cabinet sizes. "We are entering on our second year by doubling our stock and re-arranging our rooms," remarked Mr. Anderson, "and in addition to adopting the monthly payment system on pianos and organs has nearly doubled our sheet music department, which is the leading feature of our business, and contains 20,000 different selections, which we have catalogued for convenience."

We understand the Duluth Music company is arranging to import direct from Germany a large stock of brass instruments for band use, which will add to the necessity of going outside the city for articles of that kind.

Mr. Geo. H. Crosby has a large number of fine paintings on exhibition in the piano room of the firm, which adds much to the attractive appearance of it and makes an interesting headquarters for music and art.
